# L'AZIENDA THE COMPANY

Antonio Montini fonda, a Lumezzane, la Montini Antonio & figli, azienda strutturata per la produzione di casalinghi

*Antonio Montini founds in Lumezzane the company "Montini Antonio & figli" (Montini Antonio&sons"), for the production of household goods.*

Viene inaugurato il reparto di pressofusione e di lavorazioni meccaniche per la produzione di componenti per illuminazione d'interno in ottone

*It is open the die casting and mechanic processing department for the production of lighting internal brass components.*

I fratelli Montini, sensibili ai nuovi concetti industriali, trasformano l'azienda in società per azioni "FRAMON S.p.A.", strutturandola con nuove tecnologie

*The Montini brothers, sensitive to the new industrial concepts, transform the company in "FRAMON S.p.A." (Join stock company), with new technologies.*

La crescente domanda legata ai prodotti del settore dell' illuminazione porta l'azienda ad un ampliamento degli spazi con l'entrata in funzione del reparto di pressofusione e di lavorazioni meccaniche per la produzione di componenti per l'illuminazione d'esterno

*The increasing demand of lighting products, lets the company to enlarge the spaces with the start of the die casting and mechanic processing department for the production of external lighting components.*

Con l'obiettivo di un ulteriore potenziamento dei servizi, nasce il reparto per lo stampaggio di materia plastiche di accessori e di componenti per l'illuminazione

*Birth of the moulding department for plastic accessories and lighting components, with the aim to increase the services.*

L'esigenza di ulteriori spazi fa sì che venga aperto a Rovato, adiacente all'autostrada A4 Milano/Venezia il nuovo magazzino centrale dei prodotti semilavorati.

*Consapevoli delle esigenze dei mercati stranieri, uno sforzo organizzativo ci porta ad ottenere la certificazione ISO9001*

*Due to the need of further spaces, it is open a new central warehouse for semi-finished products in Rovato, close to the speedway A4 Milan/Venice. Considering the needs of the abroad markets, an organizational effort let us obtain the Certificate ISO 9001.*

# STORIA STORY

2000

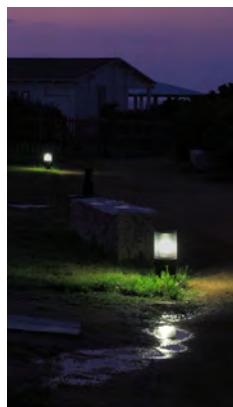

2008

2009

2010

2012

2016

Una rivalutazione della componentistica per l'illuminazione in ottone è ciò che sta alla base dell'acquisizione della Fonderia RECROSIO, tra le principali aziende del comparto

*The foundry RECROSIO, one of the main company of the sector, is bought, due to the increase of the value of the lighting components.*

Per soddisfare in modo ancor più completo le necessità del mercato, Framon sceglie di allargare la rosa dei propri prodotti, inserendo una serie di articoli finiti e cablati in alluminio e ottone per esterno e altri articoli in ghisa

*In order to satisfy in a complete way the needs of the market, Framon chooses to enlarge its product range with external finished and cabled goods of aluminium and brass products and other cast iron items.*

Una grande rivoluzione logistica: il magazzino viene trasferito a Lumezzane in una sede totalmente automatizzata, concepita per rendere ancora più veloce ed efficiente il passaggio del prodotto al cliente.

*A great logistic revolution: the warehouse is moved to Lumezzane in a totally automated area, in order to make quicker and more efficient the passage of the product to the customer.*

Intraprende una nuova strategia di comunicazione con una vision a medio-lungo termine. Il brand subisce un radicale restyling con un rinnovo complessivo concepita per rendere ancora più veloce ed efficiente il passaggio del prodotto al cliente.

*There is a new communication strategy with a mid-long term vision. The brand is subjected to a radical restyling with a total renovation of the promotion and marketing supports, made in a different way for the different abroad markets.*

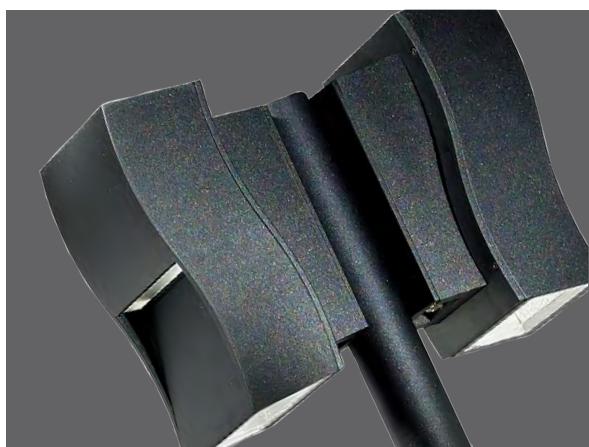

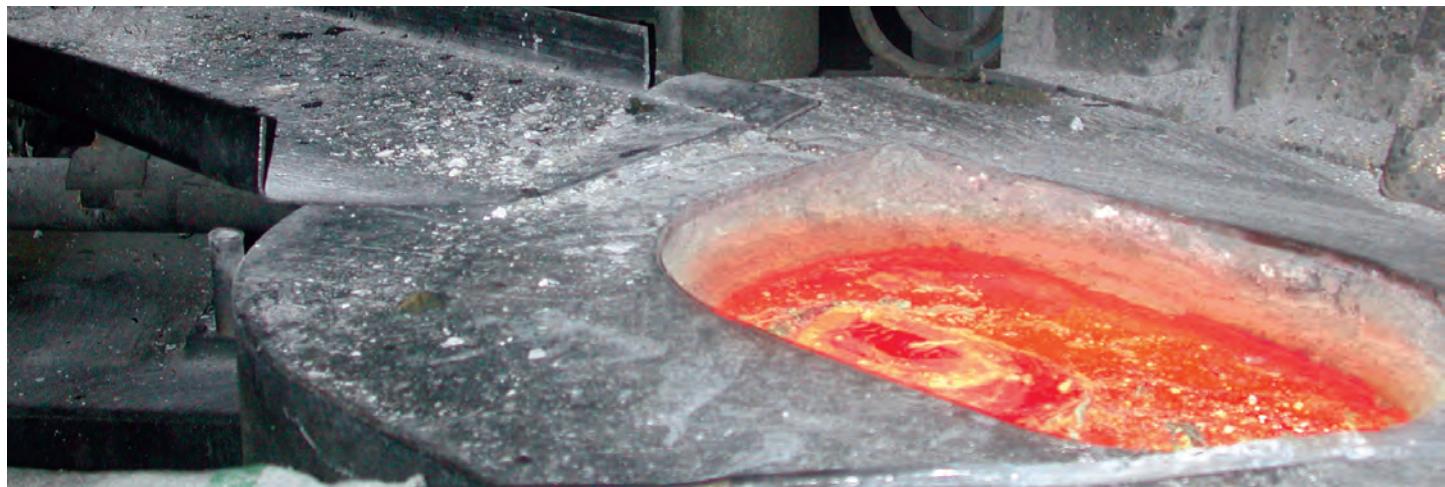

La nostra attività continua la sua progressiva, ma costante evoluzione. Alla gamma del prodotto finito classico, si aggiunge un ventaglio di prodotti finiti "tecnici" dal design sempre più ricercato utilizzando tecnologie a LED.

*Our activity goes ahead with the progressive and constant evolution. To the finished classical range product, there is the addition of a range of finished "technical" goods, with an always more refined, using the LED technologies.*

All'insegna di un'incessante crescita e per meglio far fronte alle nuove e più svariate esigenze del mercato, FRAMON avvia una politica di acquisizione di rami d'azienda con l'annessione di marchi storici del settore. Un'attività in progress...

*Thanks to the continuous increase and in order to meet the new and different market needs, FRAMON starts a policy of acquisition of company branches, with the annexation of historical brands of the sector.*

L'AZIENDA  
THE COMPANY

# L'AZIENDA THE COMPANY

Prodotti tradizionali e raffinati, costruiti pezzo dopo pezzo nel segno del "Made in Italy" con materiali rigorosamente selezionati. E' il segno distintivo delle linee di prodotti Framon nell'interpretazione delle versioni "classica" e "moderna". Forniamo prodotti nel settore illuminazione ad alto impatto tecnologico coniugato ad un'estetica essenziale e ricercata.

La nostra produzione è estremamente duttile anche perché è in grado di eseguire qualsiasi tipo di lavorazione sulle fusioni prodotte, utilizzando importanti macchinari tecnologicamente avanzati e costantemente rinnovati, come complessi transfer, torni a controllo numerico e centri di lavoro. FRAMON S.p.A. propone i propri articoli con una finitura standar, ma su specifica richiesta, è in grado di fornire il materiale con la tipologia di finitura richiesta dal cliente. Tradizione e innovazione, qualità e competitività del prodotto, capacità imprenditoriale e affidabilità, fanno di FRAMON S.p.A. un' azienda leader nel proprio settore. Il successo di FRAMON S.p.A. è la capacità di saper cogliere le sfide del mercato, mantenendo ferma negli anni la fedeltà a una cultura del lavoro basata sulla serietà, sul continuo sforzo creativo e sull'accurato aggiornamento tecnologico.

Traditional and refined products, built step by step following the "Made in Italy" way with high selected materials. It is the distinctive sign of the Framon lines product for the "classical" and "modern" versions. We supply high technological impact and with a sophisticated and essential appearance products for the lighting sector

Our production is extremely flexible as it is able to perform every kind of mechanical processing on the castings using technological advanced and continually renewed machinery like transfers, lathes CN and machining centres. FRAMON S.p.A. proposes its items with a standard finishing, but on specific demand it can also supply the material with the finishing requested by the customer

Tradition and innovation, quality and competitiveness of the product, entrepreneurial ability and reliability make FRAMON S.p.A. a leading company in its sector.

The success of FRAMON S.p.A. is the capability to accept the market challenges maintaining during the years the fidelity to a working culture based on seriousness, constant inventive effort and careful technological updating.

**Caratteristiche Costruttive/Structural Construction**

**Disponibilità con luce monodirezionale:**  
Installazione a parete e soffitto  
Componente: pressofusione di alluminio EN AB 46100 verniciato con polvere poliestere ad elevata resistenza ai raggi UV e alla corrosione  
Diffusori: vetro chiaro trasparente monodisco temperato 4 mm  
Tubo: tubo elettrico alluminio UNI EN 573-3 (8080)  
Porta lampada: E27 - GU10 - LED  
Luminosità: 1200 lm  
Cattacavo: tensione di rete 220-240V  
Vento: acciaio inox  
Sospensione: acciaio espanso - silicone stampato  
Isolamento: Classe  
Normativa: conformità alla norma EN60598-1  
Marchio: CE

**Available with mono directional emission:**  
Fitting: wall fitting, ceiling fitting  
Components: die cast aluminum EN AB 46100 painted with polyester powder UV ray and corrosion resistant  
Diffuser: clear transparent monodisc tempered glass 4 mm  
Tube: extruded aluminum UNI EN 573-3 (8080)  
Lamp holder: E27 - GU10 - LED  
Lighting: 1200 lm  
Power cord: 220-240V  
Wind: stainless steel  
Suspension: expanded silicone - moulded silicone  
Insulation: Class  
Norms: manufactured in compliance with EN60598-1 norms  
Mark: CE

## Classe di protezione IP

L'International Protection (o classe di protezione IP) nell'ingegneria elettrica è un codice che riassume il livello di protezione di un'apparecchiatura elettrica contro il contatto accidentale o intenzionale con il corpo umano o con oggetti, e la protezione contro il contatto con l'acqua.

Livello	Protezione contro l'ingresso di corpi solidi estranei
IP0x	Nessuna protezione.
IP1x	Protetto contro corpi solidi di dimensioni superiori a 50 mm. Protetto contro l'accesso con il dorso della mano.
IP2x	Protetto contro corpi solidi di dimensioni superiori a 12 mm. Protetto contro l'accesso con un dito.
IP3x	Protetto contro corpi solidi di dimensioni superiori a 2,5 mm. Protetto contro l'accesso con un attrezzo.
IP4x	Protetto contro corpi solidi di dimensioni superiori a 1 mm. Protetto contro l'accesso con un filo.
IP5x	Protetto contro le polveri. (poca e non su parti conduttrici)
IP6x	Protetto totale dall'ingresso di polvere. (nessuna traccia)

Livello	Protezione contro la penetrazione dei liquidi
IPx0	Nessuna protezione.
IPx1	Protetto contro cadute verticali di gocce d'acqua.
IPx2	Protetto contro cadute di gocce d'acqua fino a 15° dalla verticale.
IPx3	Protetto contro schizzi diretti fino a 60° dalla verticale.
IPx4	Protetto contro spruzzi d'acqua da tutte le direzioni.
IPx5	Protetto contro getti d'acqua da tutte le direzioni.
IPx6	Protetto contro getti d'acqua potenti da tutte le direzioni.
IPx7	Protetto contro gli effetti delle immersioni temporanee.
IPx8	Protetto contro gli effetti delle immersioni continue.

## International Protection (IP) ratings

In electronic engineering, the International Protection rating system classifies the degree of protection of electrical equipment against accidental or intentional contact with the body or with objects and the protection against contact with water.

Level	Protection against the inlet of solid foreign bodies
IP0x	No protection.
IP1x	Protection against solid bodies bigger than 50 mm. Effective protection against the back of the hand.
IP2x	Protection against solid bodies bigger than 12 mm. Effective protection against the back of the hand.
IP3x	Protection against solid bodies bigger than 2.5 mm. Effective protection against tools.
IP4x	Protection against solid bodies bigger than 1 mm. Effective protection against inlet with a wire.
IP5x	Dust protected. (insufficient and conducting parts not protected)
IP6x	Complete protection from dust. (no trace)

Level	Protection against the inlet of liquids
IPx0	No protection.
IPx1	Protection against water drops falling vertically.
IPx2	Protection against drips of water when tilted 15° from the vertical line.
IPx3	Protection from direct sprays of water up to 60° from the vertical line.
IPx4	Protection against sprays of water from any direction.
IPx5	Protection against water jets from any direction.
IPx6	Protection against powerful water jets from any direction.
IPx7	Protection against the effects of temporary immersion in water.
IPx8	Protection against the effects of continuous immersion in water.

### Classe di isolamento/Insulation class

Le classi di isolamento elettrico sono il raggruppamento omogeneo definito dall'IEC (International Electrotechnical Commission) delle caratteristiche tecniche applicabili ad un dispositivo elettrico per limitare i rischi di folgorazione conseguenti ad un guasto dello stesso.

*In the electrical appliance manufacturing industry, the following IEC protection classes are used to differentiate between the protective-earth connection requirements of devices.*

Classe 0

Gli apparecchi che appartengono a questa classe non prevedono la connessione a terra tramite un conduttore di terra  
*These appliances have no protective-earth connection*

Classe I

Gli apparecchi che appartengono a questa classe devono avere le loro parti conduttrici accessibili collegate a terra tramite un conduttore di terra  
*These appliances must have their chassis connected to electrical earth by an earth conductor*

Classe II

Gli apparecchi che appartengono a questa classe sono progettati in modo da non richiedere la connessione di massa a terra  
*These appliances is one which has been designed in such a way that it does not require a safety connection to electrical earth*

Classe III

Gli apparecchi che appartengono a questa classe non presentano tensioni superiori alla Bassissima tensione di sicurezza SELV  
*These appliances are designed to be supplied from a separated/safety extra-low voltage (SELV) power source*

grado di protezione contro gli impatti meccanici esterni (Codice IK) CEI EN 50102.

*degrees of protection against external mechanical impacts (IK Code) CEI EN 50102*

IK	00	01	02	03	04	05	06	07	08	09	10
JOULES	0	0.15	0.20	0.35	0.50	0.70	1	2	5	10	20

Risponde ai requisiti UE in materia di sicurezza, salute e protezione ambientale.

*It states that the product meets EU safety, health and environmental protection requirements*

Installabile su superfici normalmente infiammabili

*Suitable to the mounting on normal inflammable surfaces*

Non calpestabile  
*Not walkway*

Calpestabile  
*Walkway*

Carrabile

# FISSAGGIO A PARETE

## WALL FIXING

# TOT

Forte della sua resistenza, Tot è un prodotto caratterizzato da un'elevata qualità dei materiali costruttivi che ne garantisce l'utilizzo all'esterno.

E' disponibile sia in forma cilindrica sia in forma rettangolare al fine di garantire massima adattabilità e versatilità.

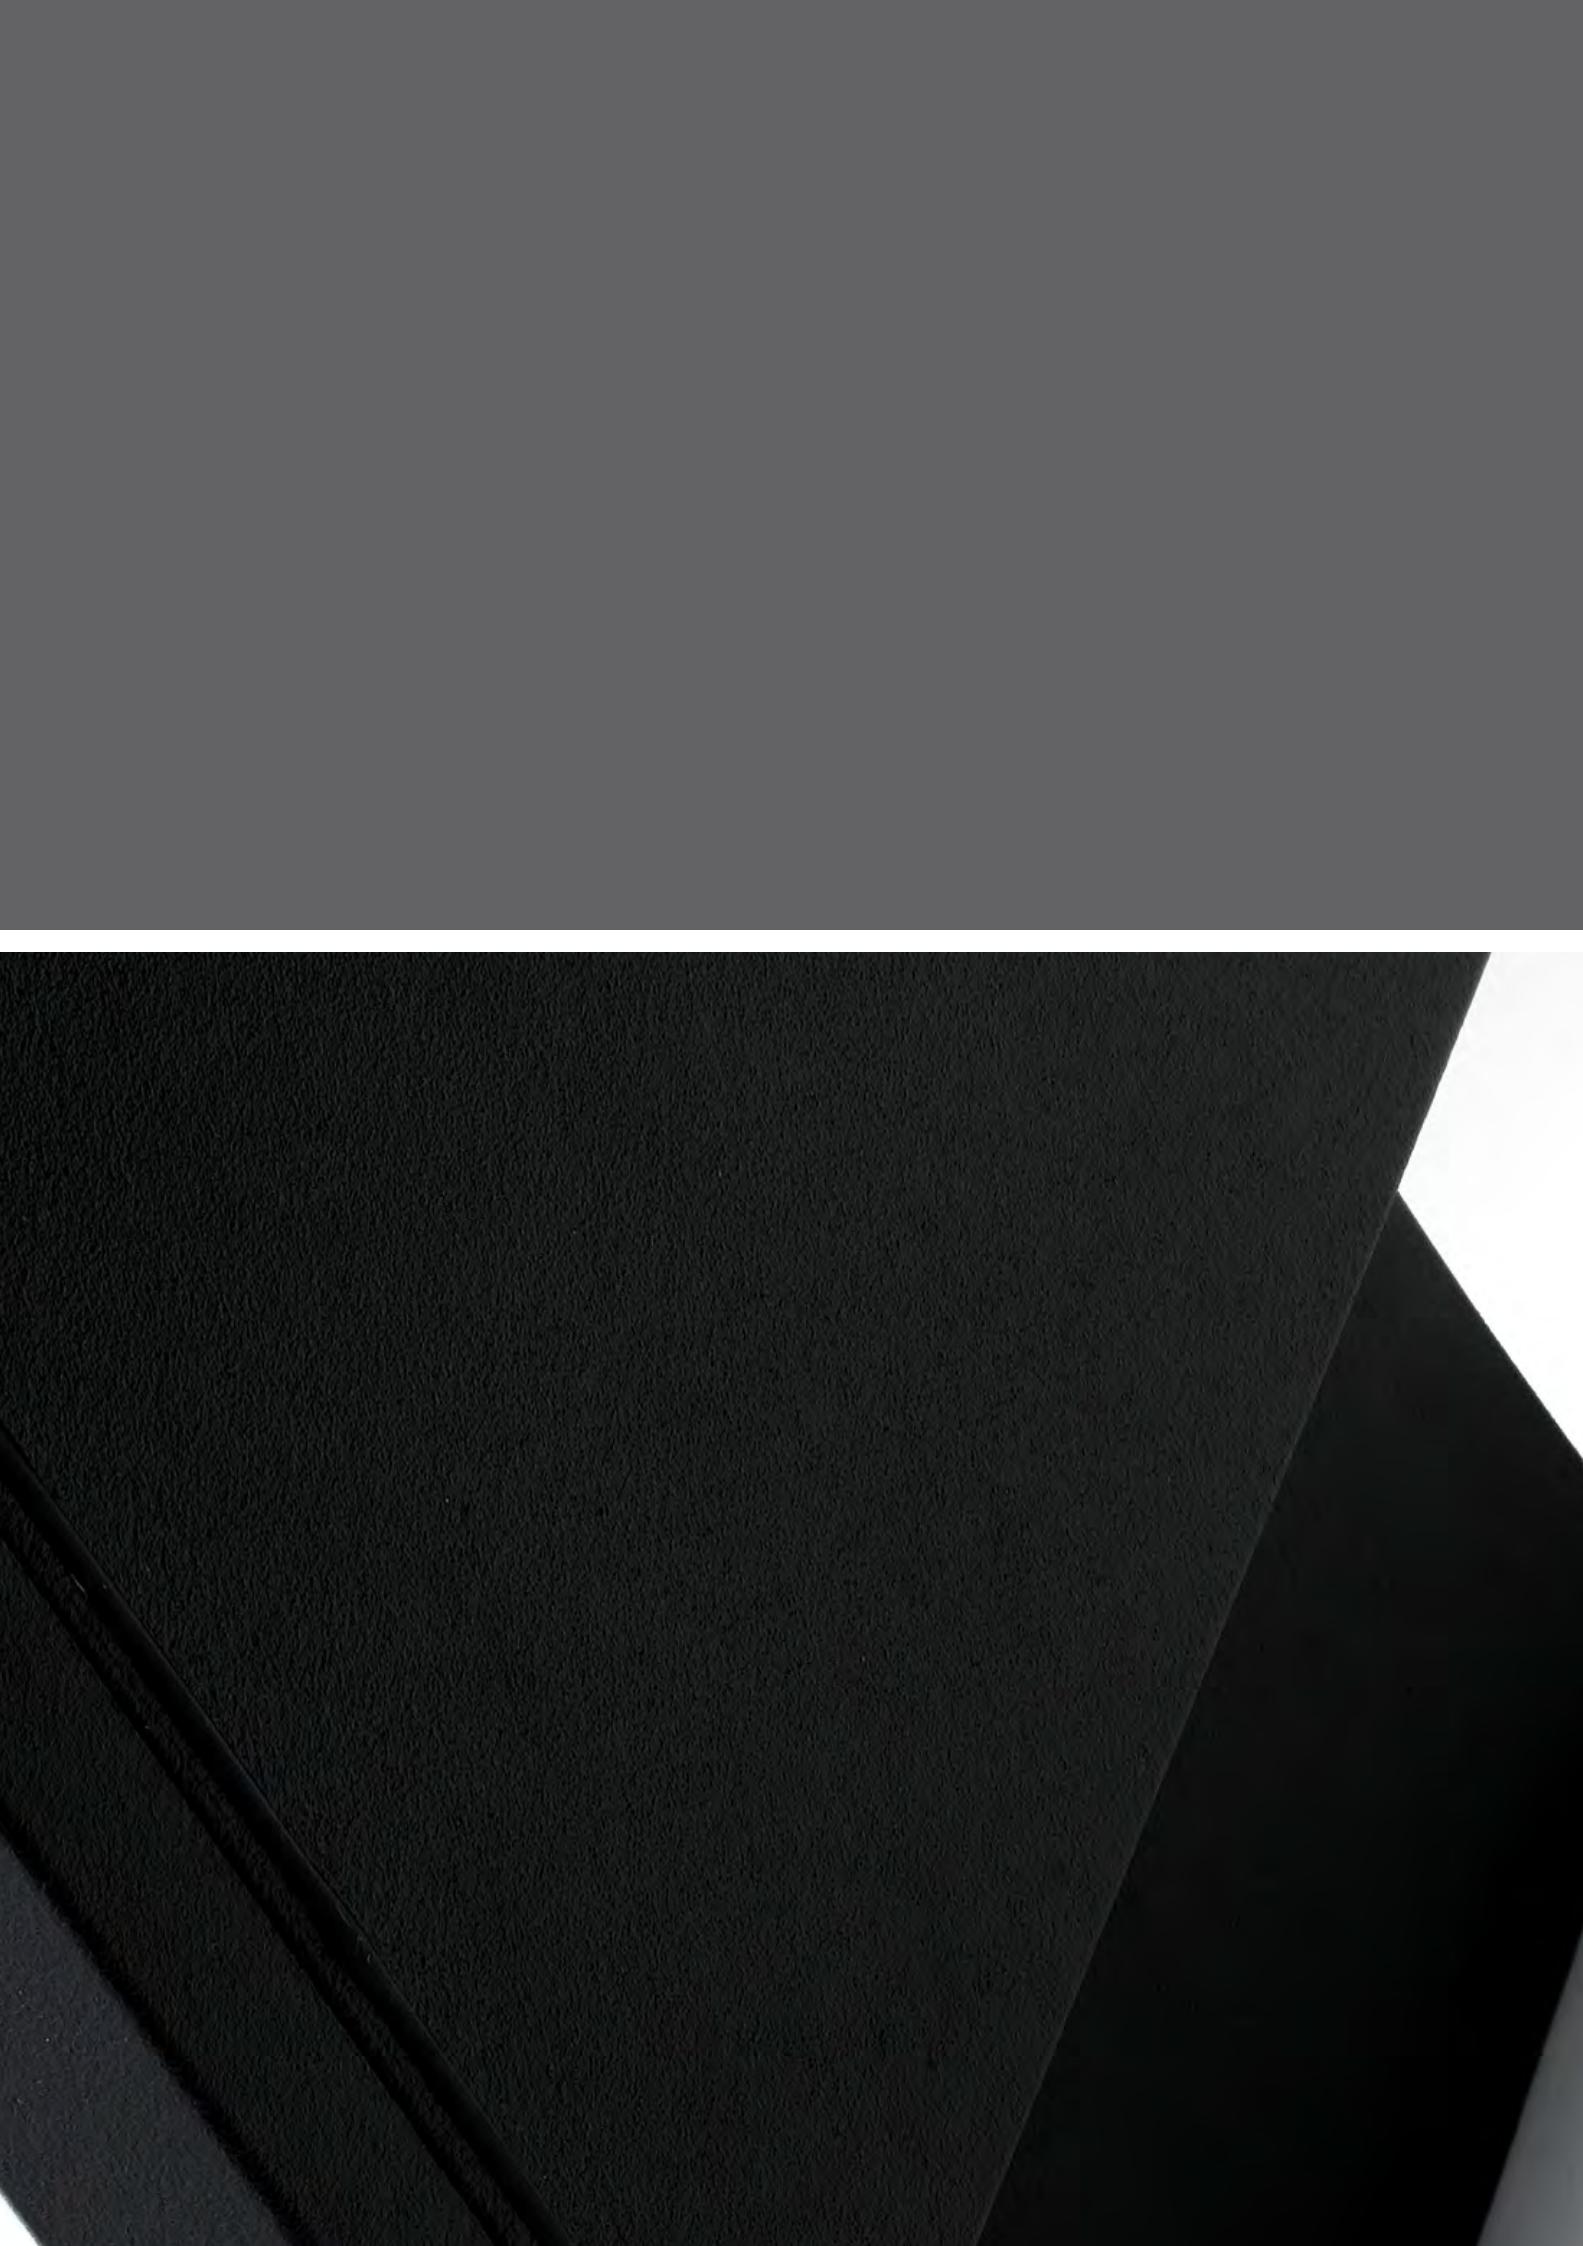

Proponiamo Tot in due versioni differenti: nella prima l'articolo presenta un orientamento della luce esclusivo verso il basso, nella seconda invece l'articolo presenta un orientamento della luce in entrambe le direzioni quindi sia verso il basso sia verso l'alto.

Vi è inoltre la possibilità di scegliere il prodotto Tot in tre varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione.

Istallabile a parete,Tot è un connubio perfetto tra design innovativo, accattivante ed efficienza tecnica.

*Confident of its resistance, Tot is characterised by the high quality of building materials which guarantees the use in outdoor environment. It is available in both cylindrical and rectangular forms in order to guarantee maximum adaptability and versatility. Tot is available in two different versions: the first is designed to shine the light exclusively downwards, whereas the second directs the light in both directions, upwards and downwards. With the choice among three different colour shades, Tot can perfectly match your setting needs. Possible to install on walls, Tot is a perfect union between innovative, captivating design and technical efficiency.*

## Caratteristiche Costruttive/*Structural Construction*

Disponibili con luci monodirezionali.

Installazione: a parete, a soffitto

Componenti: pressofusione di alluminio EN AB 46100 verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione

Diffusori: vetro chiaro trasparente monolitico temperato 4 mm

Tubo: estruso in alluminio UNI EN 573-3 (6060)

Portalampada: E27 - GU10 - **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V

Viterie: acciaio inox

Guarnizione: silicone espanso - silicone stampato

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

Fissaggio a soffitto pagina 73

Bollard pagina 195

*Available with mono direction emission*

*Fixing: wall fixing, ceiling fixing*

*Components: die cast aluminium EN AB 46100 painted with polyester powder UV ray and corrosion resistant*

*Diffusers: clear monolithic tempered glass 4mm*

*Tube: extruded aluminium UNI EN 573-3 (6060)*

*Lampholder: E27 - GU10 - **LED***

*Lamp not included*

*Wiring: voltage 220-240V*

*Screws kit: stainless steel*

*Gasket: expanded silicone - moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

*Mark: CE*

# NOTA

Forme innovative e materiali di elevatissima qualità fanno di Nota un prodotto perfetto per rivestire i vostri spazi esterni. Disponibile per installazione a parete e a terra, Nota garantisce la massima resa e durevolezza nel tempo, oltre ad una estrema versatilità per soddisfare tutti i tipi di esigenza di ambientazione. Nota è il perfetto connubio tra stile e tecnologia avanzata.

*An innovative design and high quality materials make Nota a perfect furnishing for your outdoor spaces.*

*Available for wall and floor mount installation, Nota guarantees maximum performance and durability over time as well as high versatility that fits every type of setting.*

*Nota is a perfect combination of style and advanced technology.*

## Caratteristiche Costruttive/*Structural Construction*

Disponibili con luci monodirezionali.

Installazione: a parete e a terra

Componenti: corpo in pressofusione di alluminio Lega EN AB 46100

palo ø75 in alluminio trafiletto Lega EN AW6060

Diffusori: in vetro temperato trasparente s=4mm

Verniciatura: in polvere poliestere resistente alla corrosione e alle nebbie saline (ISO7523)

Portalampada: RX7s-24

Lampada non inclusa

Cablaggio: cavo di collegamento Testa/Base tipo ND21N in Silicone 3x1,5mm

ingresso alimentazione con pressacavo IP68 in ottone

Viterie: acciaio inox A2

Guarnizione: guarnizione vetro in gomma siliconica

guarnizione Corpo in gomma EPDM 45sh

guarnizione vetro in Gomma siliconica 50sh

sportello di ispezione con viti torx antivandalo

Isolamento: Classe I

Normative: conforme alla Norma EN 60598 (CEI 34-21) e prescrizioni particolari

Marchio: CE

*Available with mono direction emission*

*Fixing: wall fixing and ground fixing*

*Components: body in die-cast aluminium - Alloy EN AB 461 pole ø75 in extruded aluminium Alloy EN AW6060*

*Diffusers: clear toughened safety glass s=4mm*

*Painting: polyester powder paint finish resistant to corrosion and sea mist (ISO72523)*

*Lampholder: RX7s-24 - G9/LED*

*Lamp not included*

*Wiring: power cable head/base type ND21N in silicon rubber 3x1,5mm*

*line entry with metallic cable gland IP68*

*Screws kit: A2 stainless steel*

*Gasket: silicon rubber seal for glass*

*EPDM 45sh rubber seal for lamp body*

*silicon rubber 50sh seal for glass*

*inspection door fixed with vandal-proof torx screws*

*Insulation: Class I*

*Norms: conforms to the standard EN 60598 (CEI 34-21) and specific provisions*

*Mark: CE*

# PAPILLON

Forte della sua resistenza, Papillon è un prodotto caratterizzato da un'elevata qualità dei materiali costruttivi che ne garantisce l'utilizzo all'esterno.

Vi è la possibilità di scegliere il prodotto Papillon in tre varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione.

Proponiamo Papillon in due versioni differenti: nella prima l'articolo presenta un orientamento della luce esclusivo verso il basso, nella seconda invece l'articolo presenta un orientamento della luce in entrambe le direzioni quindi sia verso il basso sia verso l'alto. Installabile a parete e a soffitto, la forma tondeggiante di Papillon esalta il suo design semplice e lineare. Infine, la possibilità di scegliere Papillon nella versione LED ne garantisce l'efficienza luminosa e permette consumi di energia minimi.

*Confident of its resistance, Papillon is characterised by the high quality of its building materials, which guarantees the use in outdoor environment.*

*With the choice among three different colour shades, Papillon can perfectly match your setting needs. Papillon is available in two different versions: the first is designed to shine the light exclusively downwards, whereas the second directs the light in both directions, upwards and downwards. Possible to install on walls and ceilings, Papillon rounded shape enhances its simple and linear design. Papillon is also available in a LED version, guaranteeing lighting efficiency and the lowest energy consumption level.*

#### Caratteristiche Costruttive/*Structural Construction*

Disponibili con luci bidirezionali o monodirezionali.

Installazione: a parete, a soffitto

Componenti: pressofusione di alluminio EN AB 46100 verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione

Diffusori: vetro chiaro trasparente monolitico temperato 4 mm

Riflettore: alluminio anodizzato

Portalampada: E27 – E27 HQI - GX24d-3 - **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V

Viterie: acciaio inox

Guarnizione: silicone espanso - silicone stampato

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

Opzioni: vetro satinato (a richiesta)

*Available with mono direction or bi-direction emission*

*Fixing: wall fixing, ceiling fixing*

*Components: die cast aluminium EN AB 46100 painted with polyester powder UV ray and corrosion resistant*

*Diffusers: clear monolithic tempered glass 4mm*

*Reflector: anodised aluminium*

*Lampholder: E27 – E27 HQI - GX24d-3 - **LED***

*Lamp not included*

*Wiring: voltage 220-240V*

*Screws kit: stainless steel*

*Gasket: expanded silicone - moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

*Mark: CE*

*Options: satin glass (on request)*

Forte della sua resistenza, Tecno è un prodotto caratterizzato da un'elevata qualità dei materiali costruttivi che ne garantisce l'utilizzo all'esterno.

Proponiamo Tecno in due versioni differenti: nella prima l'articolo presenta un orientamento della luce esclusivo verso il basso, nella seconda invece l'articolo presenta un orientamento della luce in entrambe le direzioni quindi sia verso il basso sia verso l'alto.

Vi è la possibilità di scegliere il prodotto Tecno in cinque varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione. Il prodotto è disponibile anche nella versione **LED** che ne garantisce l'efficienza luminosa e permette consumi di energia minimi. Iinstallabile tramite fissaggio a parete, Tecno è un connubio perfetto tra design innovativo ed efficienza tecnica

*Confident of its resistance, Tecno is characterised by the high quality of its building materials, which guarantees the use in outdoor environment.*

*Tecno is available in two different versions: the first is designed to shine the light exclusively downwards, whereas the second directs the light in both directions, upwards and downwards. With the choice among five different colour shades, Tecno can perfectly match your setting needs. Tecno is also available in a **LED** version, guaranteeing lighting efficiency and the lowest energy consumption level. Possible to install on walls and ceilings, Tecno is the perfect union between innovative design and technical efficiency.*

#### Caratteristiche Costruttive/*Structural Construction*

Installazione: A terra, A parete

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione. Palo in estruso in alluminio UNI EN 573-3 (6060)

Diffusori: policarbonato trasparente - opale (disponibile su richiesta)

Cassaforma: polipropilene, completa di coperchio di protezione in corso di installazione

Riflettore: alluminio brillantato e anodizzato

Portalampada: G24d-3 - **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V reattore elettromeccanico 50/60Hz

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

*Fixing: ground fixing, recessed lightings*

*Components: die cast aluminium EN AB 46100 , painted with polyester powder UV ray and corrosion resistant. Extruded aluminium pole UNI EN 573-3 (6060)*

*Diffusers: transparent polycarbonate - opal (available on request)*

*Formwork: polypropilene, complete with top for protection during the installation*

*Reflector: brightened and anodised aluminium*

*Lampholder: G24d-3 - **LED***

*Lamp not included*

*Wiring: voltage 220-240V electromechanical driver 50/60Hz*

*Screws kit: stainless steel*

*Gasket: moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

# LUNA

Luna è un prodotto che si presenta con un design lineare e sobrio, pensata per offrire soluzioni di luce in ambienti esterni che richiedono adeguata luminosità, come ad esempio aree residenziali. Il prodotto è dotato di caratteristiche tecniche che permettono il montaggio a parete, inoltre è disponibile in due cover per meglio adattarsi a diverse esigenze estetiche.

Luna è infine disponibile anche nella versione LED.

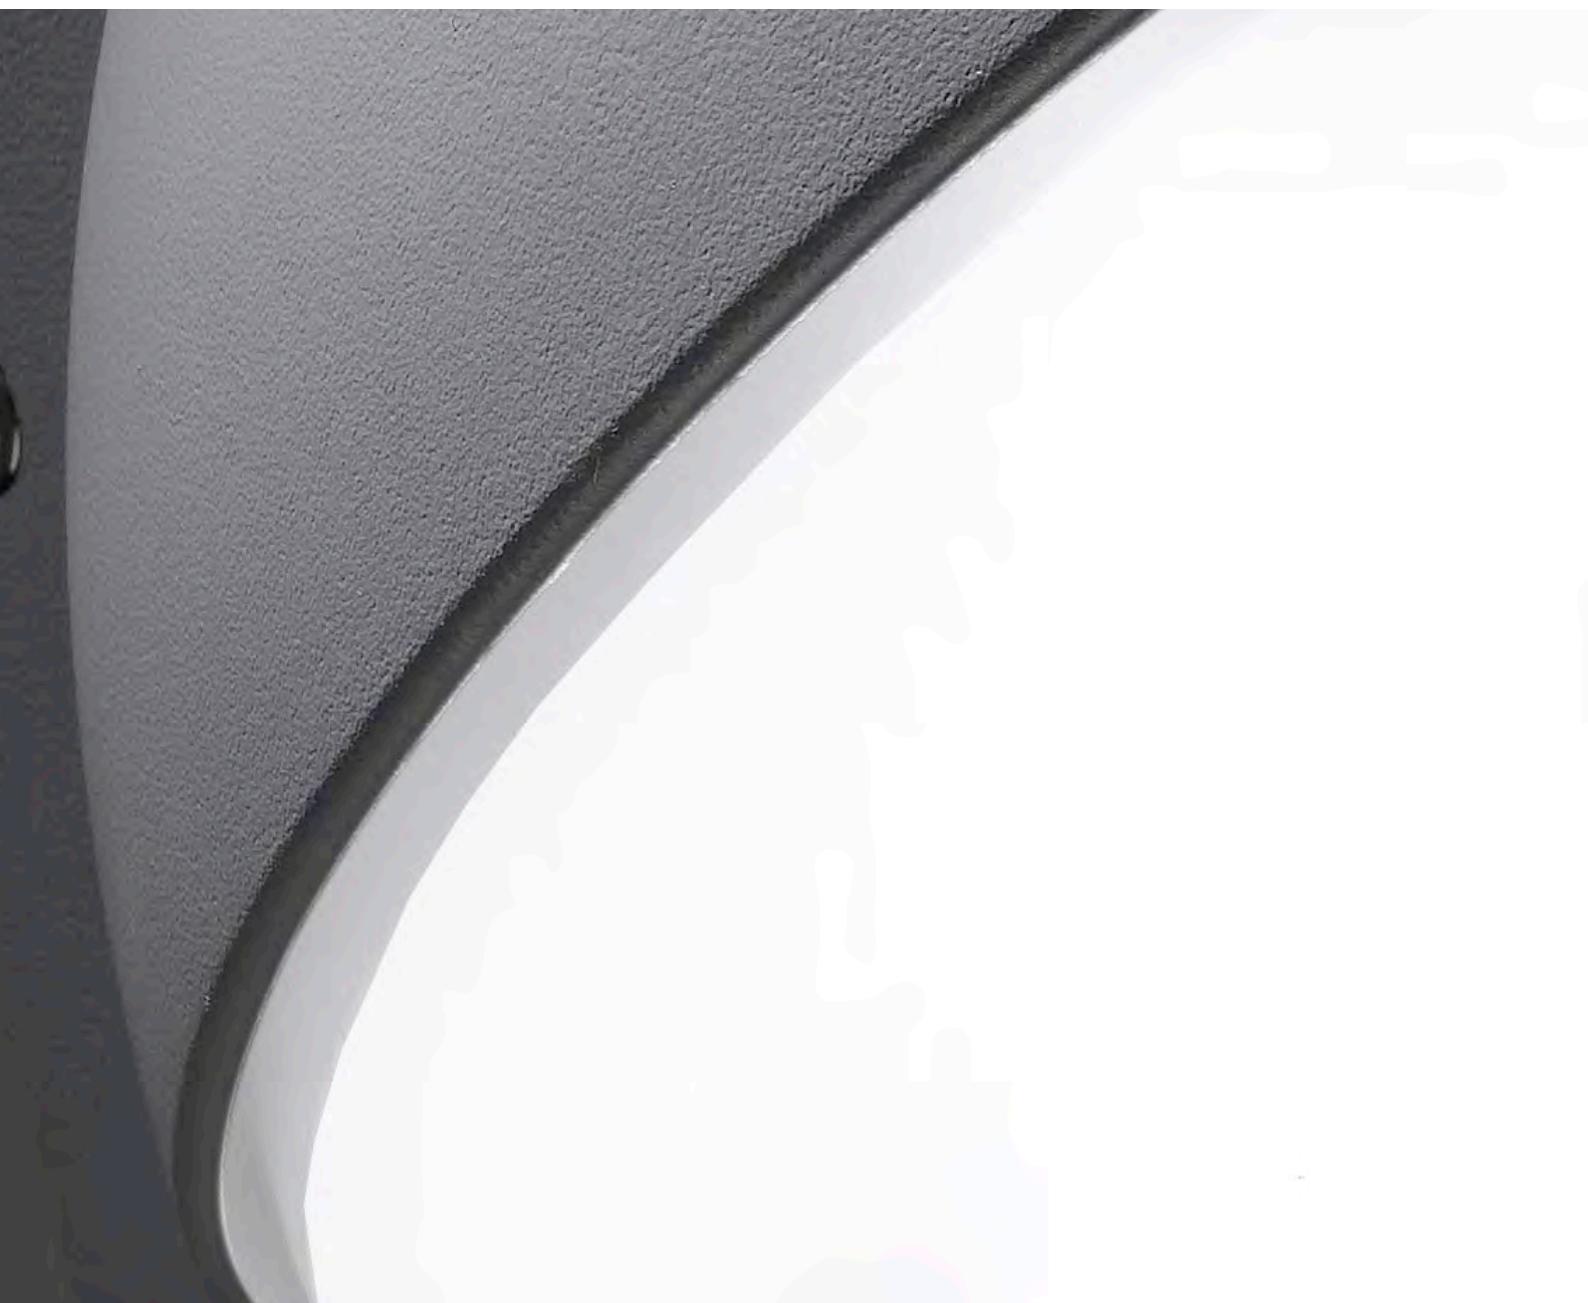

Modulo LED integrato, che svolge le funzioni di luce permanente con doppia accensione e illuminazione di emergenza.

BATTERIE RICARICABILI E SOSTITUIBILI a bordo.

Scheda LED verde monitor presenza rete, batterie inserite. Formato da 72 miniLED di ultima generazione integrati su un supporto circolare autodissipante dimensionato per essere integrato in lampada che originariamente utilizzavano la "circolina" da 32w.

*Luna is a product with a linear and plain design, designed to offer lighting solutions in outdoor environments which require adequate luminosity, such as residential areas. The product is equipped with technical characteristics which allow wall fixing, furthermore it is available in two covers in order to adapt to different aesthetic needs. Luna is also available in LED version. Integrated LED module which performs permanent light functions with double switch and emergency lighting.*

*Contains RECHARGEABLE AND REPLACEABLE BATTERIES. Green LED board for grid monitoring, batteries included. Made up of 72 state-of-the-art mini LEDs integrated on a round heat sink designed to fit in lamps which originally used the 32-watt circline.*

## Caratteristiche Costruttive/*Structural Construction*

Disponibili con luci monodirezionali.

**Installazione:** a soffitto

**Componenti:** corpo e cornice in pressofusione di alluminio EN AB 46100 verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione

Diffusori policarbonato opale

Riflettori alluminio anodizzato

Portalampada E27 – GR8 – G24d-2 - **LED**

Lampada non inclusa

Cablaggio tensione di rete 220-240V

Viterie acciaio inox

Guarnizione silicone

Isolamento Classe I

Normative conformità alle norme EN60598-1

Marchio CE

*Available with mono direction emission*

*Fixing: ceiling fixing*

# FISSAGGIO A SOFFITTO WALL CEILING

# TOT

Forte della sua resistenza, Tot è un prodotto caratterizzato da un'elevata qualità dei materiali costruttivi che ne garantisce l'utilizzo all'esterno.

E' disponibile sia in forma cilindrica sia in forma rettangolare al fine di garantire massima adattabilità e versatilità.

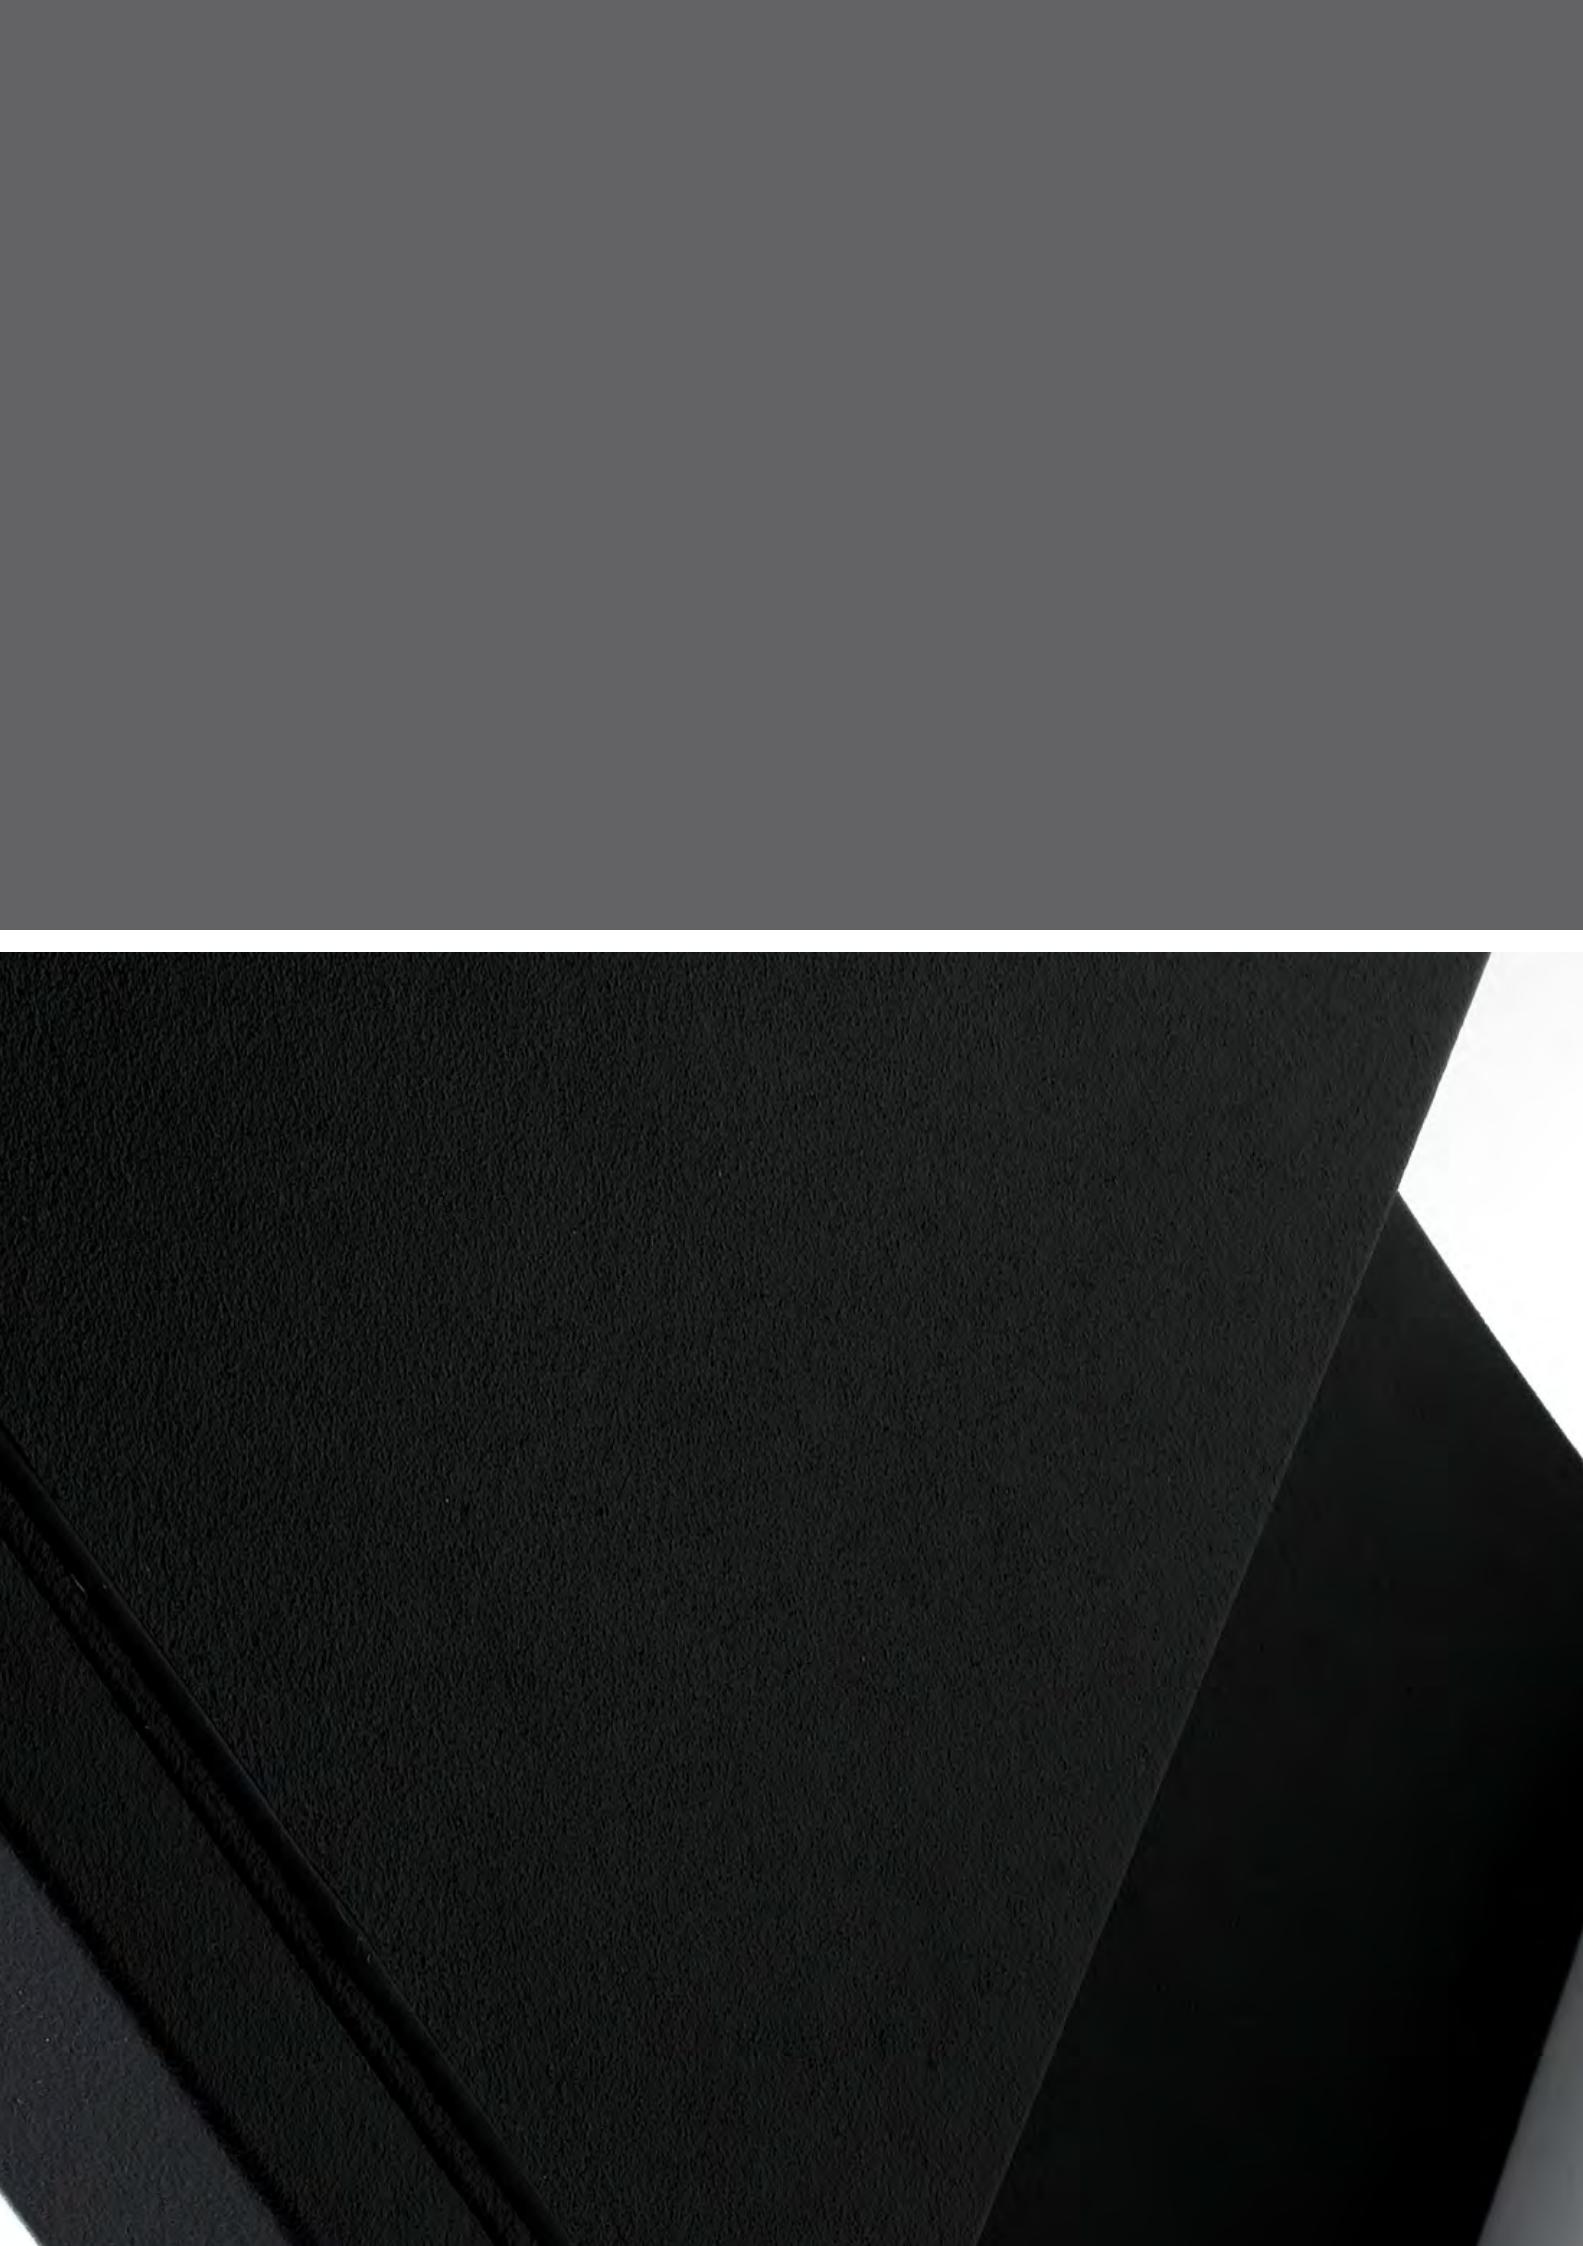

Proponiamo Tot in due versioni differenti: nella prima l'articolo presenta un orientamento della luce esclusivo verso il basso, nella seconda invece l'articolo presenta un orientamento della luce in entrambe le direzioni quindi sia verso il basso sia verso l'alto.

Vi è inoltre la possibilità di scegliere il prodotto Tot in tre varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione.

Istallabile a soffitto, Tot è un connubio perfetto tra design innovativo, accattivante ed efficienza tecnica.

*Confident of its resistance, Tot is characterised by the high quality of building materials which guarantees the use in outdoor environment. It is available in both cylindrical and rectangular forms in order to guarantee maximum adaptability and versatility. Tot is available in two different versions: the first is designed to shine the light exclusively downwards, whereas the second directs the light in both directions, upwards and downwards. With the choice among three different colour shades, Tot can perfectly match your setting needs. Possible to install on ceilings, Tot is a perfect union between innovative, captivating design and technical efficiency.*

#### Versione Incasso Parete

L'apparecchio viene fornito con cassaforma in PP Polipropilene da incasso a parete, predisposta per l'ingresso dell'alimentazione, dal fondo e dalle pareti laterali.

*Recessed ceiling fixture*

*The lighting fixture is supplied with stainless steel spring clips for recess mounting in false / suspended ceilings.*

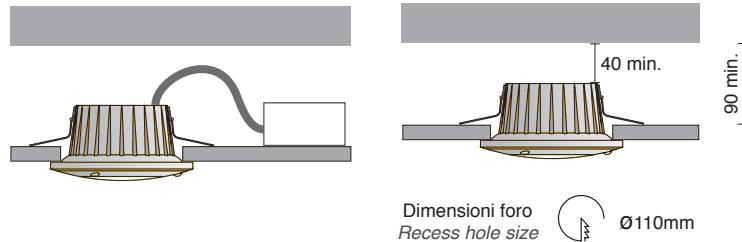

#### Versione Incasso Softto

L'apparecchio viene fornito con molle in acciaio per incasso in controsofttature.

*Recessed ceiling fixture*

*The lighting fixture is supplied with stainless steel spring clips for recess mounting in false / suspended ceilings.*

# ALFA

Alfa è un prodotto realizzato con materiali di elevata qualità che ne garantiscono un'ottima resa in esterno.

Estremamente versatile ed adattabile a qualsiasi esigenza, grazie alla possibilità di installazione a parete, a soffitto ed a terra, Alfa garantisce la massima resa ed una propagazione ottimale della luce, rivestendo i vostri spazi esterni di stile ed innovazione.

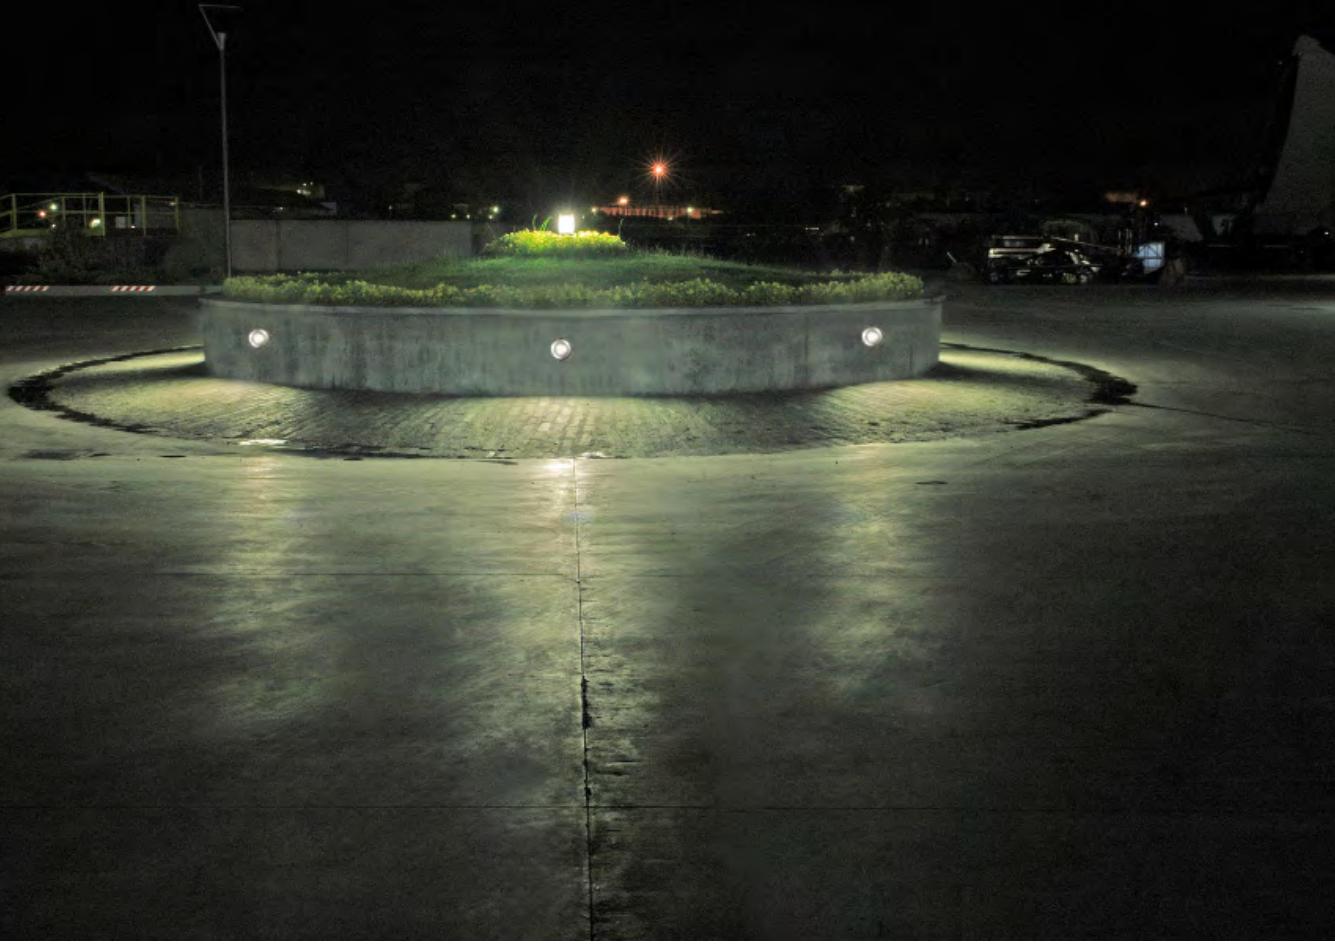

Alfa è il risultato di un'avanzata ricerca tecnologica.

*Alfa is a product made with high quality materials that guarantee a high level outdoor performance.*

*Extremely versatile and adaptable to any requirement due to its wall, ceiling and floor mount installation options, Alfa guarantees maximum performance and optimal lighting, furnishing your outdoor spaces with style and innovation. Alfa is the result of advanced technological research.*

#### Caratteristiche Costruttive/*Structural Construction*

Disponibili con luci monodirezionali.

**Installazione:** incasso a parete, a parete, a soffitto e a terra  
**Componenti:** corpo in pressofusione di alluminio Lega EN AB 46100 - cornice in acciaio inox lucido AISI316 (Art. 265, 268, 269, 272, 273) - ressofusione di alluminio Lega EN AB 46100 (Art. 266, 267, 270, 271) - Picchetto: in Poliammide PA6 V2 GWT960°C per ssaggio a terra (Art. 269) - palo in alluminio estruso Sez. Rettangolare 30x100mm Lega EN-AW 6060 (Art. 270, 271, 273)  
**Diffusori:** in vetro temperato acidato  
**Cassaforma:** per incasso in Polipropilene PP caricato stabilizzato UV GWT750°C cat.V2  
**Verniciatura:** in polvere poliestere resistente alla corrosione e alle nebbie saline (ISO7523)  
**Portalampada:** GX53 - G9 - Lampada non inclusa  
**Cablaggio:** congiungere con picchetto : cavo esterno H05RN-F L=200mm con morsettiera tripolare stagna IP68 collegamento cavo alimentazione su testa palo

# FANTE

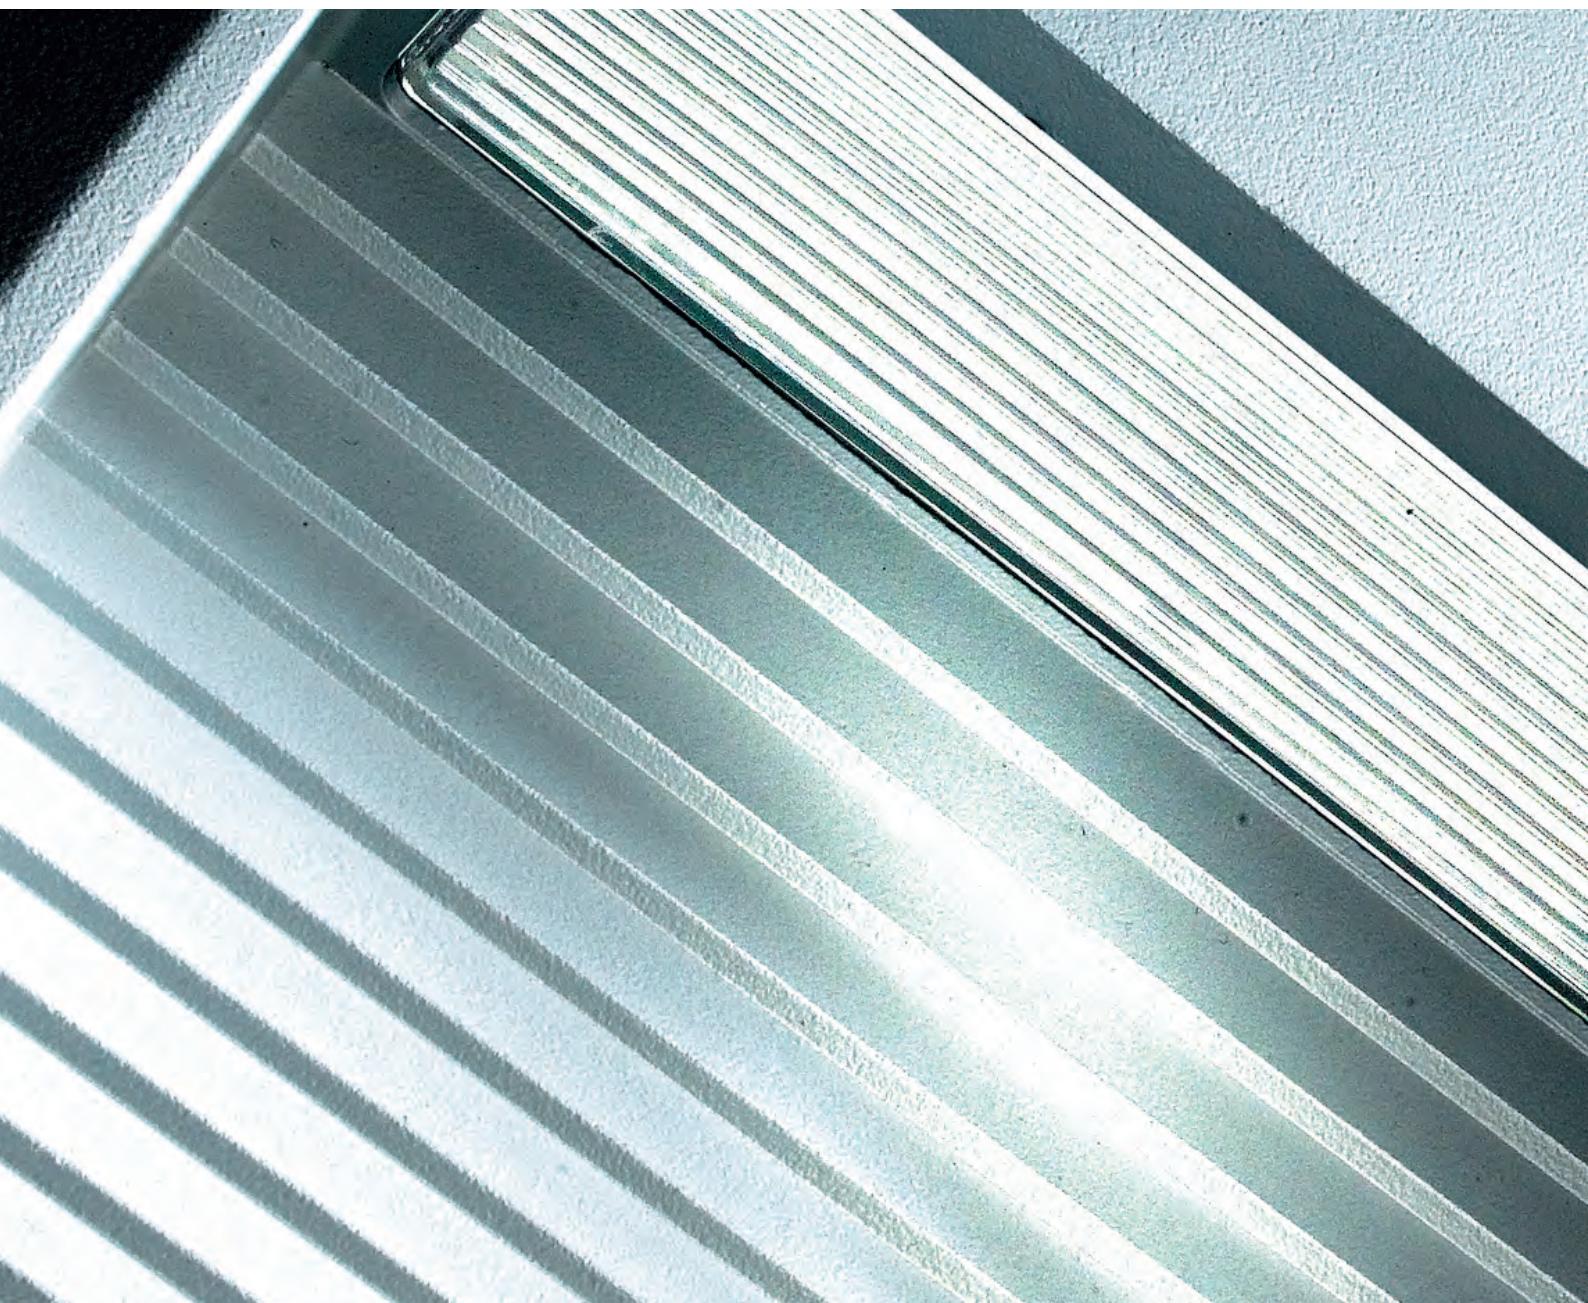

Bollard a terra che presenta caratteristiche costruttive di alta qualità. Fante è un prodotto estremamente massiccio e resistente pensato e ideato per garantire soluzioni di luminosità per l'ambiente esterno soprattutto nelle aree residenziali caratterizzate da zone verdi e giardini. Vi è la possibilità di scegliere il prodotto Fante in tre varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione.

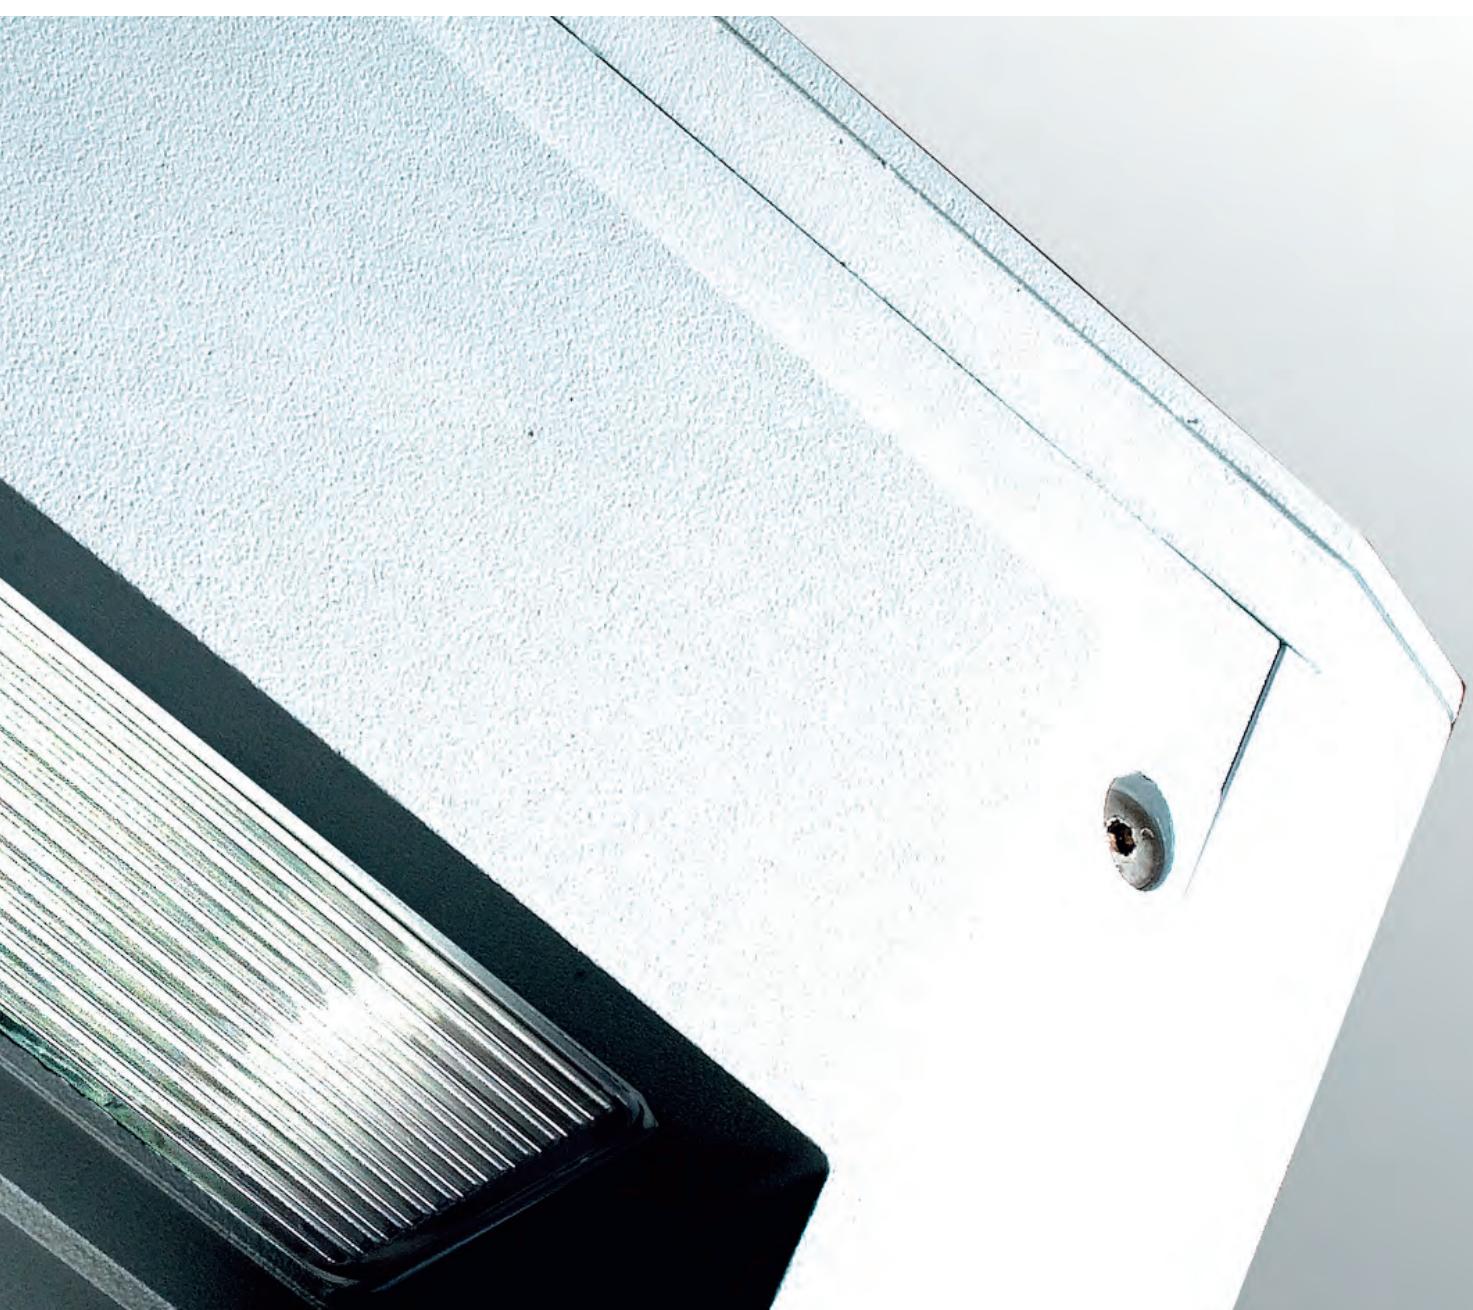

Meccanicamente costruito in modo tale che la luce sia direzionata in maniera specifica, Fante si presenta come un prodotto versatile e completo che può essere quindi adattato a piacimento. Infine, il prodotto è disponibile anche nella versione Led che ne garantisce l'efficienza luminosa e permette consumi di energia minimi.

*A ground bollard with high quality building features.*

*Fante is an extremely durable and solid product, designed for ensuring luminosity solutions for outdoor environment, especially in residential areas with gardens and greens. With the choice among three different colour shades, Fante can perfectly match your setting needs.*

*Mechanically manufactured in such a way that the light is directed in a specific way, Fante is a complete and versatile product which can be adapted to all requirements. The product is also available in a LED version, guaranteeing lighting efficiency and the lowest energy consumption level.*

#### Caratteristiche Costruttive/*Structural Construction*

Installazione: a terra, a parete

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione. Palo in estruso in alluminio UNI EN 573-3 (6060)

Diffusori: policarbonato trasparente, nella versione con lampada G12 vetro temperato - opale (disponibile su richiesta)

Cassaforma: polipropilene, completa di coperchio di protezione in corso di installazione

Riflettore: alluminio brillantato e anodizzato

Portalampada: G24d-3 - **LED** - G12

Lampada non inclusa

Cablaggio: tensione di rete 220-240V reattore elettromeccanico 50/60Hz

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

*Fixing: ground fixing, recessed lightings*

*Components: die cast aluminium EN AB 46100 , painted with polyester powder UV ray and corrosion resistant. Extruded aluminium pole UNI EN 573-3 (6060)*

*Diffusers: transparent polycarbonate - opal (available on request)*

*Formwork: polypropylene, complete with top for protection during the installation*

*Reflector: brightened and anodised aluminium*

*Lampholder: G24d-3 - **LED** - G12*

*Lamp not included*

*Wiring: voltage 220-240V electromechanical driver 50/60Hz*

*Screws kit: stainless steel*

*Gasket: moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

*Mark: CE*

Accessori e sistemi di installazione/*Options*

Dimensioni foro per cassaforma da incasso.  
La cassaforma deve essere installata a filo parete.  
*Size of recess hole for mounting box.*  
*The mounting box must be installed flush to wall.*

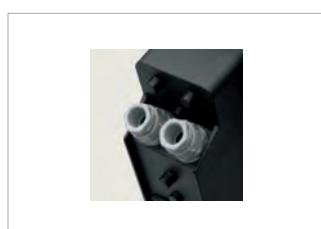

**Incasso Parete**

L'apparecchio viene fornito con cassaforma in PP Polipropilene GWT750° da incasso a parete, predisposta per l'ingresso dell'alimentazione dal fondo e dalle pareti laterali.

*Wall mounted*

*This lighting fixture is supplied with a PP polypropylene recess mounting box GWT750° for wall mounting and has cable entry from bottom and side walls.*

**Doppio Ingresso Alimentazione**

L'apparecchio può essere fornito con doppio ingresso per cavi di alimentazione. Si utilizza doppio passacavo in PVC o in alternativa doppio pressacavo in PA6 Poliammide passo PG9 IP54 GWT960°. Utilizzare cavi flessibili in doppia guaina tipo H07Rn-F 3x1.5mmq. L'utilizzo di cavi rigidi può compromettere la tenuta all'acqua dei passacavi.

*Dual power supply entry*

*This lighting fixture can be supplied with a dual entry for power supply cables. A double PVC cable gland can be fitted or in alternative a double polyamide PA6 cable gland PG9 IP54 GWT960°. Use flexible cables with a double sheath type H07Rn-F 3x1.5mm<sup>2</sup>. Rigid cables may compromise water sealing of the cable glands.*

Tutti gli articoli con lampada:

13W G24q-1

sono disponibili anche con alimentatore elettronico compatto 220÷240V/50÷60Hz EEI=A2.

*All products with lamp:*

13W G24q-1

*are also available with a compact electronic ballast 220÷240V/50÷60Hz EEI=A2.*

# DALIA

Dalia è un prodotto realizzato con materiali di altissima qualità che ne garantiscono la massima resa in esterno.  
Installabile a parete, Dalia è studiato per durare nel tempo e garantire una propagazione ottimale della luce.  
Elegante e ricercato, vestirà di stile i vostri spazi esterni.

*Dalia is a product made with high quality materials which guarantee maximum outdoor performance. Available for wall mount installation, Dalia is designed to be long-lasting and ensure optimal lighting. Its elegant and refined design will enhance the style of your outdoor spaces*

## Caratteristiche Costruttive/*Structural Construction*

Disponibili con luci monodirezionali.

Installazione: incasso a parete

Componenti: Corpo/Cornice in pressofusione di alluminio Lega EN AB 46100

Cassaforma per incasso in Polipropilene PP caricato stabilizzato UV GWT750°C cat.V2

Diffusori: Vetro temperato acidato

Policarbonato satinato stabilizzato UV GWT960 °C cat.V2 IK08 (disponibile su richiesta per 9450/9550)

Ottiche: in alluminio anodizzato anodicamente

Verniciatura: in polvere poliestere resistente alla corrosione e alle nebbie saline (ISO7523)

Portalampada: E27 - G23 - G24d-1 - G24q-1 - G24d-3 - G24q-3 - **LED**

Lampada non inclusa

Cablaggio: Componentistica all'interno del corpo lampada

Alimentatore elettromagnetico per lampade fluorescenti compatte a basse perdite EEI=B2. Alimentatore elettronico per lampade fluorescenti compatte EEI=A2

Viterie: acciaio inox A2

Dotazione: Guarnizione vetro in Etilene-propilene (EPDM) 40sh

Entrata singola del cavo di alimentazione con passacavo in PVC 70sh

Isolamento: Classe I

Normative: conforme alla Norma EN 60598 (CEI 34-21) e prescrizioni particolari

Marchio: CE

*Available with mono direction emission*

*Fixing: recessed lightings*

*Components: Body/Bezel die-cast aluminium - Alloy EN AB 46100  
Recess mounting box PP polypropylene UV stabilised GWT750°C cat.V2*

*Diffusers: Acid etched glass*

*Satin finish polycarbonate UV stabilised GWT960°C cat.V2 IK08 (available on request for 9450/9550)*

*Optics: anodically anodised aluminium*

*Painting: polyester powder paint finish resistant to corrosion and sea mist (ISO72523)*

*Lampholder: E27 - G23 - G24d-1 - G24q-1 - G24d-3 - G24q-3 - **LED***

*Lamp not included*

*Wiring: Electrics and wiring enclosed in lighting fixture body  
Electromagnetic ballast for energy efficient EE1=B2 compact fluorescent lamps. Electronic ballast for energy efficient EE1=A2 compact fluorescent lamps*

*Screws kit: A2 stainless steel*

*Gasket: Ethylene-propylene (EPDM) 40 sh seal for sealing glass  
Single cable entry with a PVC 70 sh cable gland*

*Insulation: Class I*

*Norms: Conforms to the standard EN 60598 (CEI 34-21) and specific provisions*

*Mark: CE*

# TABULA

Tabula è un apparecchio a incasso caratterizzato dalla forma rettangolare. Dotato di design lineare ed essenziale, vi offriamo la possibilità di scegliere il prodotto in due varianti: con o senza griglia. Ideale per l'ambiente esterno, disponibile anche nella versione **LED** che ne garantisce l'efficienza luminosa e permette consumi di energia minimi.

*Tabula is a built-in rectangular device. Equipped with a linear and basic design, it gives the customer the possibility to choose between two different versions: with or without grill. Ideal for outdoor use, it is also available in a **LED** version which guarantees lighting efficiency and the lowest energy consumption level.*

#### Caratteristiche Costruttive/*Structural Construction*

Disponibili con luci monodirezionali.

Installazione: incasso a parete

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione, corpo esterno in policarbonato

Diffusori: vetro temperato e sabbiato resistente agli urti

Cassaforma: polipropilene

Portalamppada: E27 – G24d-2 - **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

*Available with mono direction emission*

*Fixing: recessed lightings*

*Components: die cast aluminium EN AB 46100 , painted with polyester powder UV ray and corrosion resistant, polycarbonate external body*

*Diffusers: frosted tempered glass, impact resistant*

*Formwork: polypropylene*

*Lampholder: E27 – G24d-2 - LED*

*Lamp not included*

*Wiring: voltage 220-240V*

*Screws kit: stainless steel*

*Gasket: moulded silicone*

# CALPESTABILI WALKOVER LIGHTS

# ORMA

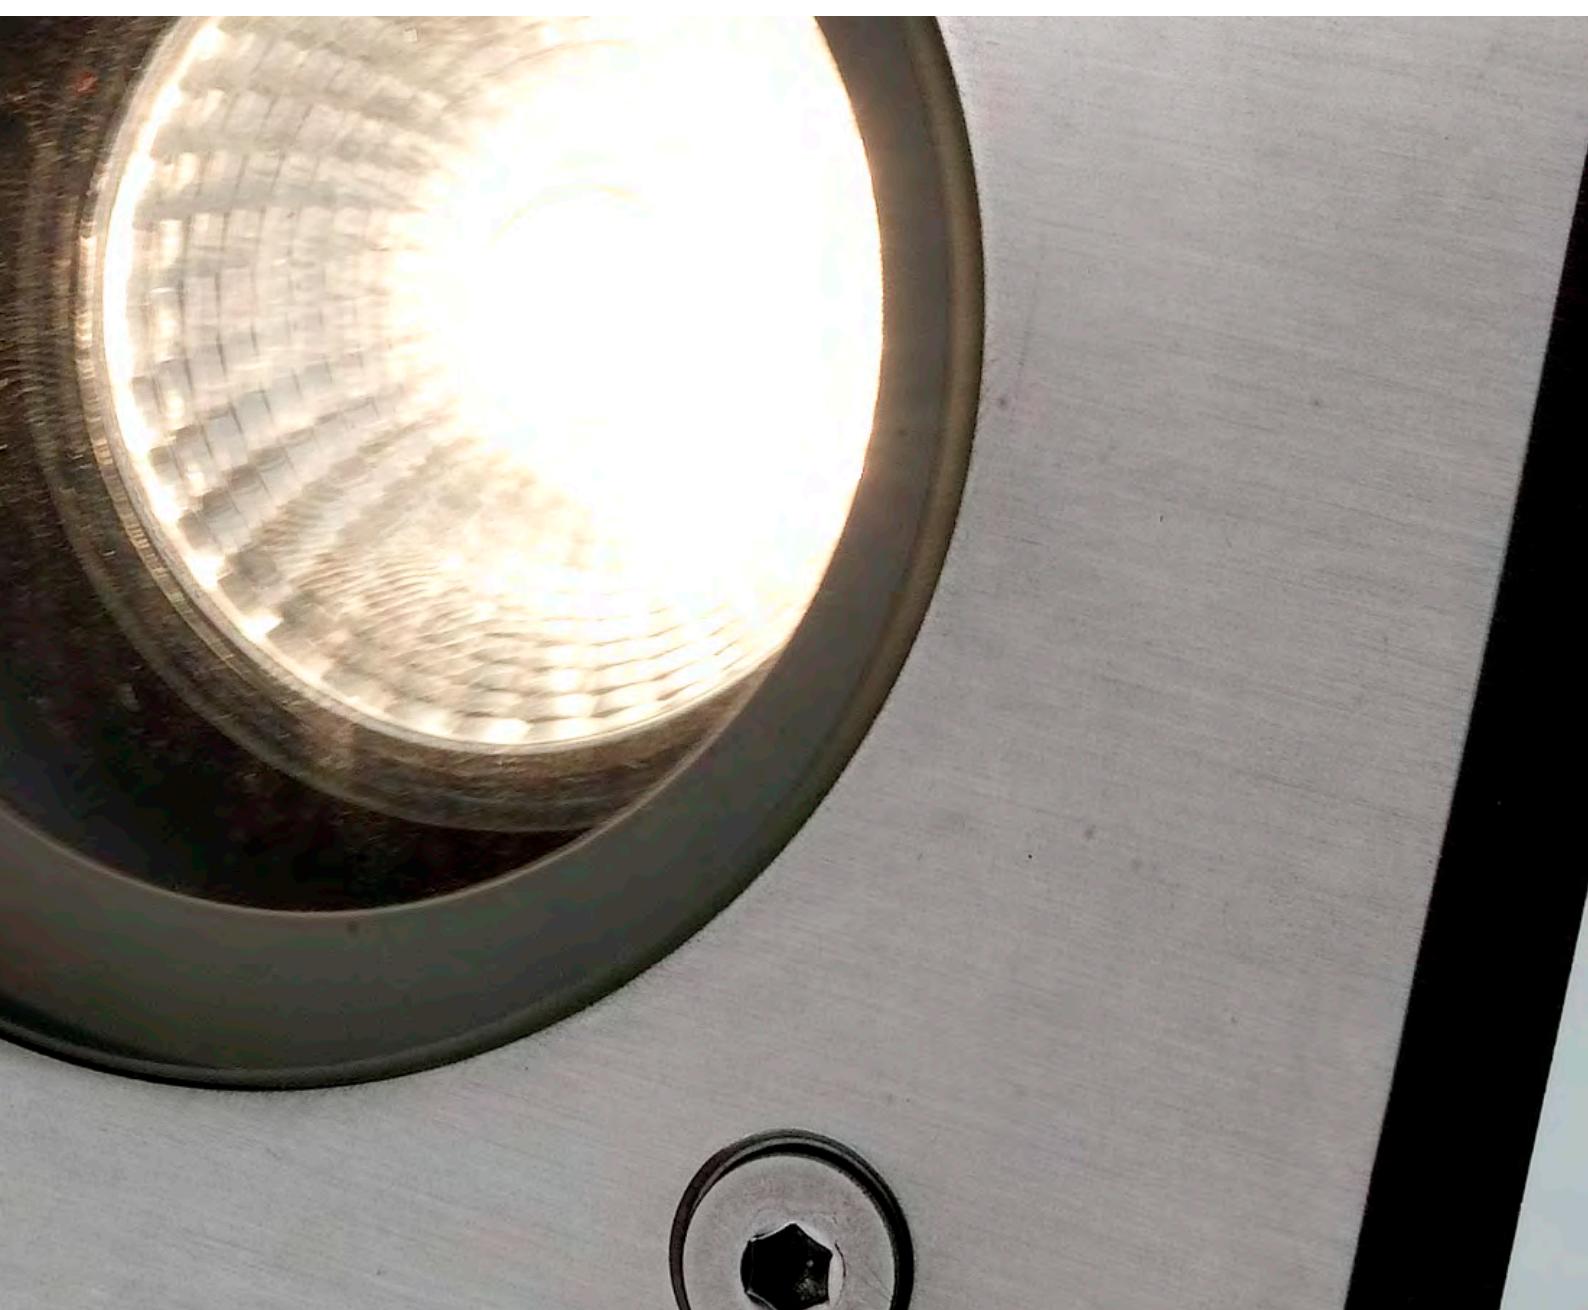

Calpestabile ad alta luminosità da incasso, Orma è un prodotto destinato all'illuminazione esterna.

Offriamo la possibilità di scegliere Orma nelle seguenti modalità di cornice: tonda - alluminio, tonda - acciaio, quadrata – acciaio. Su alcuni modelli è disponibile il riflettore simmetrico o asimmetrico. Nella versione con cornice in alluminio c'è la possibilità di scegliere tra due varianti di colore. Studiata per diffondere la luce dal basso, dotata di accorgimenti tecnici per resistere al peso, mira a migliorare la visibilità in ambienti tipo vialetti e in generale aree residenziali. Caratterizzata da un design innovativo, Orma è inoltre disponibile anche nella versione LED che permette un notevole risparmio energetico, protezione dell'ambiente e riduzione dei costi di manutenzione.

*A built-in, high luminosity walkover light, is a product designed for outdoor lighting. The customer has the possibility to choose among the following frame types: round – aluminium, round – steel, square – steel. On some models, a symmetrical or asymmetrical reflector is available. In the aluminium frame version, it is possible to choose between two colour shades. Designed to diffuse light from a low level, equipped technical devices to withstand weight, Orma aims to improve the visibility in environments such as small paths and residential areas in general. Orma can be supplied in both aluminium and steel and both in round or rectangular shape.*

*Characterised by its innovative design, Orma is also available in LED version which allows a considerable energy saving, the environment protection and the reduction of maintenance costs.*

## Caratteristiche Costruttive/*structural Construction*

Disponibili con luci monodirezionali, asimmetriche e orientabili.

Installazione: incasso a terra

Componenti: corpo in pressofusione di alluminio EN AB 46100 verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione.

Modelli 221-222-224-225 anello frontale in acciaio inox AISI 316 (disponibile su richiesta con LOGO FRAMON).

Modelli 220-223 anello frontale in alluminio pressofuso.

Modelli 227-228-229-237 anello frontale in acciaio inox AISI 304.

Diffusori: vetro temperato trasparente resistente agli urti e agli shock termici

Riflettori: alluminio anodizzato

Cassaforma: polipropilene

Portalampada: GU10 - GU5,3 - G8,5 - G9 - G12 - E14 - E27 - GX24d-3 - Rx7s - **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

Opzioni: cornice in acciaio senza logo framom (a richiesta)

cornice con diametro 110 (art. 228) (a richiesta)

*Available with mono direction emission, asymmetrical and adjustable.*

*Fixing: ground recessed fixing*

*Components: die cast aluminium body EN AB 46100 painted with polyester powder UV ray and corrosion resistant.*

*Models: 221-222-224-225 front ring in stainless steel AISI 316 (available on request with FRAMON LOGO).*

*Models: 220-223 front ring in die cast aluminium.*

*Models: 227-228-229-237 front ring in stainless steel AISI 304.*

*Diffusers: transparent tempered glass, impact and thermal shock resistant*

*Reflectors: anodised aluminium*

*Formwork: polipropilene*

*Lampholder: GU10 - GU5,3 - G8,5 - G9 - G12 - E14 - E27 - GX24d-3 - Rx7s - **LED***

*Lamp not included*

*Wiring: voltage 220-240V*

*Screws kit: stainless steel*

*Gasket: moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

*Mark: CE*

*Options: steel cover without framom logo (on request)*

*cover with diameter 110 (art. 228) (on request)*

# FENICE

Calpestabile ad alta luminosità da incasso, Fenice è un prodotto destinato all'illuminazione esterna. La forma circolare ne esalta il design estremamente lineare ed elegante.

Offriamo la possibilità di scegliere tra cinque cover differenti che permettono giochi e direzioni di luce a piacimento.

Oltre ad essere un prodotto versatile, completo e adattabile a piacimento, Fenice si presenta anche come carrabile, forte della sua resistenza ed estrema efficacia.

*A built-in, high luminosity walkover light, Fenice is a product designed for outdoor lighting. The circular shape enhances its extremely linear and elegant design. With the possibility to choose among five different covers, Fenice allows the creation of different plays of light and light directions according to your taste. Besides being a versatile, complete and adaptable product, Fenice is also a walkover product, thanks to its high resistance and efficiency.*

## Caratteristiche Costruttive/*structural Construction*

Disponibili con luci monodirezionali.

Installazione: incasso a terra

Componenti: corpo e cornice in pressofusione di alluminio EN AB 46100 verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione

Diffusori vetro temperato opale - trasparente (disponibile su richiesta).

Resistenti agli urti e agli shock termici

Riflettori alluminio anodizzato

Cassaforma polipropilene

Portalampada E27 – Rx7s – GX24d-3 - **LED**

Lampada non inclusa

Cablaggio tensione di rete 220-240V

Viterie acciaio inox

Guarnizione silicone

Isolamento Classe I

Normative conformità alle norme EN60598-1

Marchio CE

*Available with mono direction emission*

*Fixing: ground recessed fixing*

*Components: body and cover in die cast aluminium EN AB 46100 painted with polyester powder UV ray and corrosion resistant*

*Diffusers tempered glass opal - transparent (available on request).*

*Impact and thermal shock resistant*

*Reflectors anodised aluminium*

*Formwork polypropylene*

*Lampholder E27 – Rx7s – GX24d-3 - **LED***

*Lamp not included*

*Wiring voltage 220-240V*

# GAMMA

I materiali di elevata qualità fanno di Gamma un prodotto efficiente ed affidabile per l'utilizzo in esterno.

Grazie alla possibilità di installazione a parete, a soffitto ed a terra, Gamma è estremamente versatile ed adattabile ad ogni esigenza. Le forme eleganti ma innovative ricreeranno un'atmosfera di grande effetto e renderanno i vostri spazi esterni sofisticati e raffinati.

Gamma è il connubio perfetto tra stile ed efficienza.

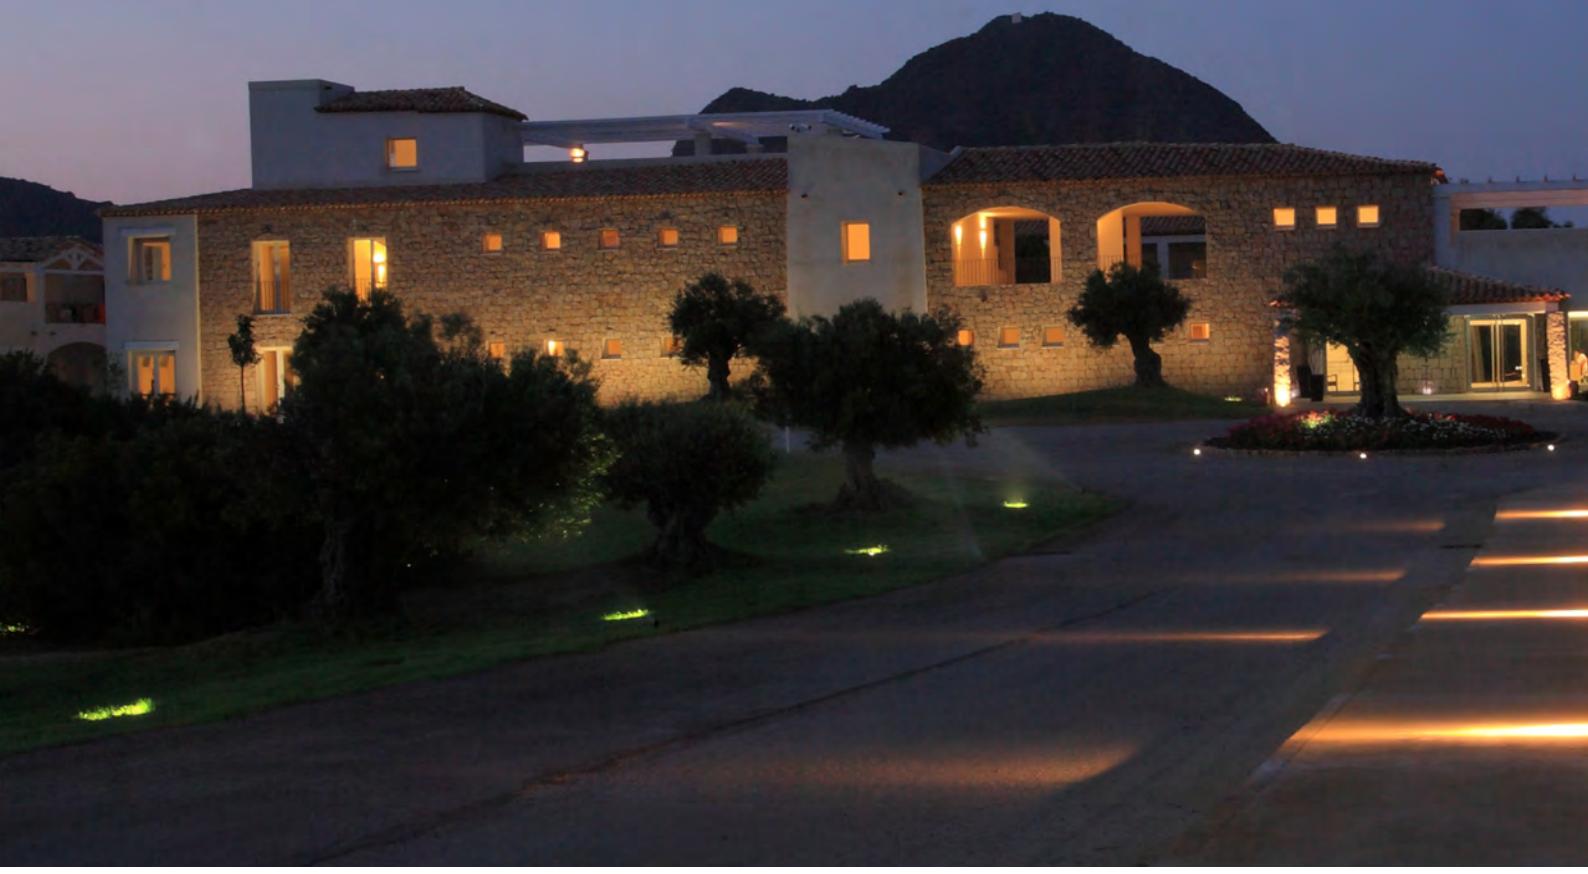

*High quality materials make Gamma an efficient and reliable product for outdoor use.*

*Thanks to its wall, ceiling and floor mount installation options, Gamma is extremely versatile and can adapt to any requirement. Its elegant and innovative design will create an impressive atmosphere by enhancing the sophistication and refinement of your outdoor spaces.*

*Gamma is a perfect combination of style and efficiency.*

#### Caratteristiche Costruttive/*structural Construction*

Disponibili con luci monodirezionali.

**Installazione:** incasso a parete, a parete, a soffitto e a terra  
**Componenti:** corpo in pressofusione di alluminio Lega EN AB 46100 - cornice in acciaio inox lucido AISI316 (Art. 255, 258, 259, 262, 263) - pressofusione di alluminio Lega EN AB 46100 (Art. 256, 257, 260, 261) - picchetto in Poliammide PA6 V2 GWT960°C per ssaggio a terra (Art. 259) - palo in alluminio estruso Sez. Rettangolare 30x100mm Lega EN-AW 6060 (Art. 260, 261, 263)  
**Diffusori:** in vetro temperato acidato  
**Cassaforma:** per incasso in Polipropilene PP caricato stabilizzato UV GWT750°C cat.V2  
**Verniciatura:** in polvere poliestere resistente alla corrosione e alle nebbie saline (ISO7523)  
**Portalampada:** GX53 - G9 - Lampada non inclusa  
**Cablaggio:** congiurazione con picchetto : cavo esterno H05RN-F L=200mm con morsettiera tripolare stagna IP68 collegamento cavo alimentazione su testa palo

# RADAR

Radar è un faretto orientabile a 360° sia sull'asse verticale sia sull'asse orizzontale. Disponibile sia con griglia che senza, presenta due basi di fissaggio: a terra o a picchetto. Oltre ad essere un prodotto versatile, completo e adattabile a piacimento, Radar dispone di un sistema di illuminazione che permette di evidenziare le finiture delle pareti illuminate. Presente anche nella versione **LED**, indice di un notevole risparmio energetico, protezione dell'ambiente e riduzione dei costi di manutenzione.

*Radar is a 360° adjustable spotlight, both on the vertical and horizontal axis. Available both with and without grill, it has two fixing bases: ground and spike. Besides being a versatile, complete and adaptable product, Radar offers a lighting system which can highlight any finishes of the lit walls. It is also available in **LED** version, indicative of considerable energy saving, environment protection and reduction of maintenance costs.*

#### Caratteristiche Costruttive/*structural Construction*

Disponibili con luce orientabile.

Installazione: a terra

Componenti: corpo e cornice in pressofusione di alluminio EN AB 46100 verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione.

Modelli 529-530 picchetto in policarbonato

Diffusori vetro temperato trasparente

Riflettori alluminio anodizzato

Portalampada E27 – GY6,35 – **LED**

Lampada non inclusa

Cablaggio tensione di rete 220-240V

Viterie acciaio inox

Guarnizione silicone

Isolamento Classe I

Normative conformità alle norme EN60598-1

Marchio CE

*Available with adjustable emission*

*Fixing: ground fixing*

*Components: body and cover in die cast aluminium EN AB 46100 painted with polyester powder UV ray and corrosion resistant.*

*Models: 529-530 polycarbonate picket*

*Diffusers transparent tempered glass*

*Reflectors anodised aluminium*

*Lampholder E27 – GY6,35 – **LED***

*Lamp not included*

# BOLLARD BOLLARD

# TOT

Forte della sua resistenza, Tot è un prodotto caratterizzato da un'elevata qualità dei materiali costruttivi che ne garantisce l'utilizzo all'esterno.

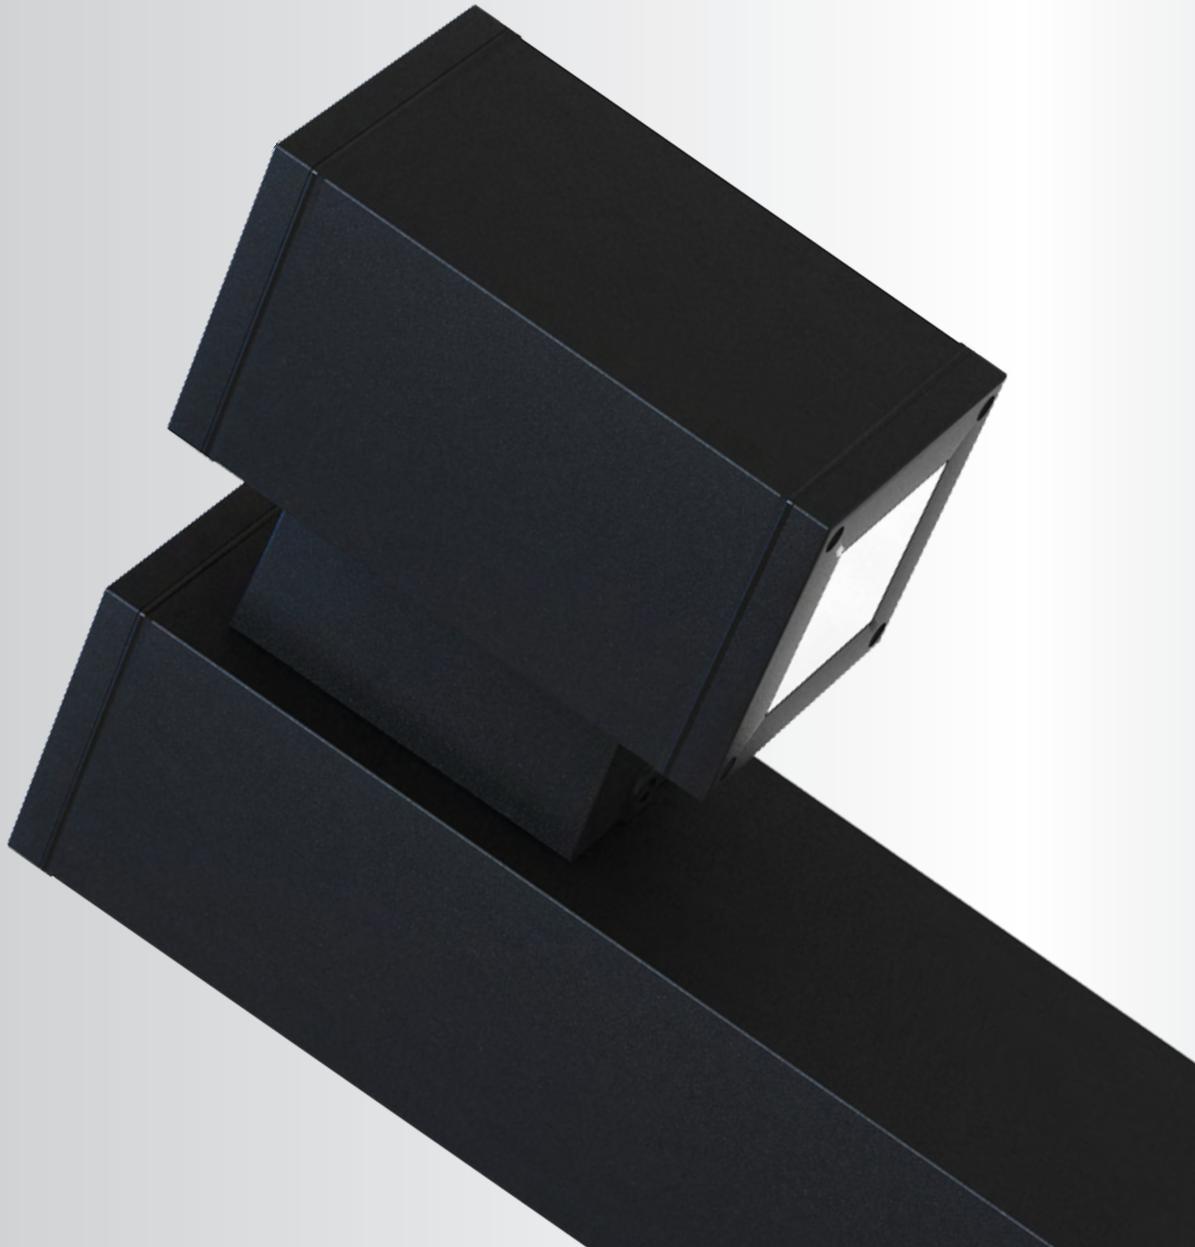

E' disponibile sia in forma cilindrica sia in forma rettangolare al fine di garantire massima adattabilità e versatilità.

Proponiamo Tot in due versioni differenti: nella prima l'articolo presenta un orientamento della luce esclusivo verso il basso, nella seconda invece l'articolo presenta un orientamento della luce in entrambe le direzioni quindi sia verso il basso sia verso l'alto.

Vi è inoltre la possibilità di scegliere il prodotto Tot in tre varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione.

Istallabile a parete e a soffitto,Tot è un connubio perfetto tra design innovativo, accattivante ed efficienza tecnica.

*Confident of its resistance, Tot is characterised by the high quality of building materials which guarantees the use in outdoor environment. It is available in both cylindrical and rectangular forms in order to guarantee maximum adaptability and versatility. Tot is available in two different versions: the first is designed to shine the light exclusively downwards, whereas the second directs the light in both directions, upwards and downwards. With the choice among three different colour shades, Tot can perfectly match your setting needs. Possible to install on walls and ceilings, Tot is a perfect union between innovative, captivating design and technical efficiency.*

#### Caratteristiche Costruttive/*structural Construction*

Disponibili con luci monodirezionali.

Installazione: a parete, a soffitto

Componenti: pressofusione di alluminio EN AB 46100 verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione

Diffusori: vetro chiaro trasparente monolitico temperato 4 mm

Tubo: estruso in alluminio UNI EN 573-3 (6060)

Portalampada: E27 - GU10 - **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V

Viterie: acciaio inox

Guarnizione: silicone espanso - silicone stampato

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

Dati tecnici/*Technical data*

Ancoraggio con staffa in metallo verniciato da fissare su fondo in cemento tramite tasselli ad espansione in metallo. Passaggio del cavo alimentazione nella parte laterale. La disposizione dei corpi illuminanti viene definita in funzione dell'orientamento della staffa.

*The post is instalLED and secured to the ground with a paint finish metal bracket which is fixed and secured to the concrete utilising metal anchor screw bolts and rawplugs. The power supply cable is fed through the side. These post lighting fixtures are positioned and directed depending on the direction and position of the fixture bracket.*

Il collegamento del cavo di alimentazione è previsto su testa palo tramite morsettiera con fissacavo protetta IP44. Utilizzare cavo tripolare in doppia guaina sez.max. 1,5mmq.

*The power cable is connected to the post head at the terminal junction box with a cable clamp IP44. Use a three-phase cable with double sheath max sec. 1.5 mm<sup>2</sup>.*

# ALFA

Alfa è un prodotto realizzato con materiali di elevata qualità che ne garantiscono un'ottima resa in esterno.

Estremamente versatile ed adattabile a qualsiasi esigenza, grazie alla possibilità di installazione a parete, a soffitto ed a terra, Alfa garantisce la massima resa ed una propagazione ottimale della luce, rivestendo i vostri spazi esterni di stile ed innovazione.

Alfa è il risultato di un'avanzata ricerca tecnologica.

*Alfa is a product made with high quality materials that guarantee a high level outdoor performance.*

*Extremely versatile and adaptable to any requirement due to its wall, ceiling and floor mount installation options, Alfa guarantees maximum performance and optimal lighting, furnishing your outdoor spaces with style and innovation. Alfa is the result of advanced technological research.*

Componenti: corpo in pressofusione di alluminio Lega EN AB 46100 - cornice in acciaio inox lucido AISI316 (Art. 265, 268, 269, 272, 273) - ressofusione di alluminio Lega EN AB 46100 (Art. 266, 267, 270, 271) - Picchetto: in Poliammide PA6 V2 GWT960°C per ssaggio a terra (Art. 269) - palo in alluminio estruso Sez. Rettangolare 30x100mm Lega EN-AW 6060 (Art. 270, 271, 273)  
Diffusori: in vetro temperato acidato  
Cassaforma: per incasso in Polipropilene PP caricato stabilizzato UV GWT750°C cat.V2  
Verniciatura: in polvere poliestere resistente alla corrosione e alle nebbie saline (ISO7523)  
Portalampada: GX53 - G9 - Lampada non inclusa  
Cablaggio: conugrazione con picchetto : cavo esterno H05RN-F L=200mm con morsettiera tripolare stagna IP68 collegamento cavo alimentazione su testa palo  
Viterie: acciaio inox A2  
Guarnizione: vetro in Etilene-propilene (EPDM) 40sh elementi in Gomma Nitrilica (NBR) 60sh passacavo in PVC 70sh  
Isolamento: Classe I  
Normative: conforme alla Norma EN 60598 (CEI 34-21) e prescrizioni particolari  
Marchio: CE

Dati tecnici/*Technical data*

Ancoraggio con staffa in metallo verniciato da fissare su fondo in cemento tramite tasselli ad espansione in metallo. Passaggio del cavo alimentazione nella parte laterale. La disposizione dei corpi illuminanti viene definita in funzione dell'orientamento della staffa.

*The post is instalLED and secured to the ground with a paint finish metal bracket which is fixed and secured to the concrete utilising metal anchor screw bolts and rawplugs. The power supply cable is fed through the side. These post lighting fixtures are positioned and directed depending on the direction and position of the fixture bracket.*

Il collegamento del cavo di alimentazione è previsto su testa palo tramite morsettiera con fissacavo protetta IP44. Utilizzare cavo tripolare in doppia guaina sez.max. 1,5mmq.

*The power cable is connected to the post head at the terminal junction box with a cable clamp IP44. Use a three-phase cable with double sheath max sec. 1.5 mm<sup>2</sup>.*

# FANTE

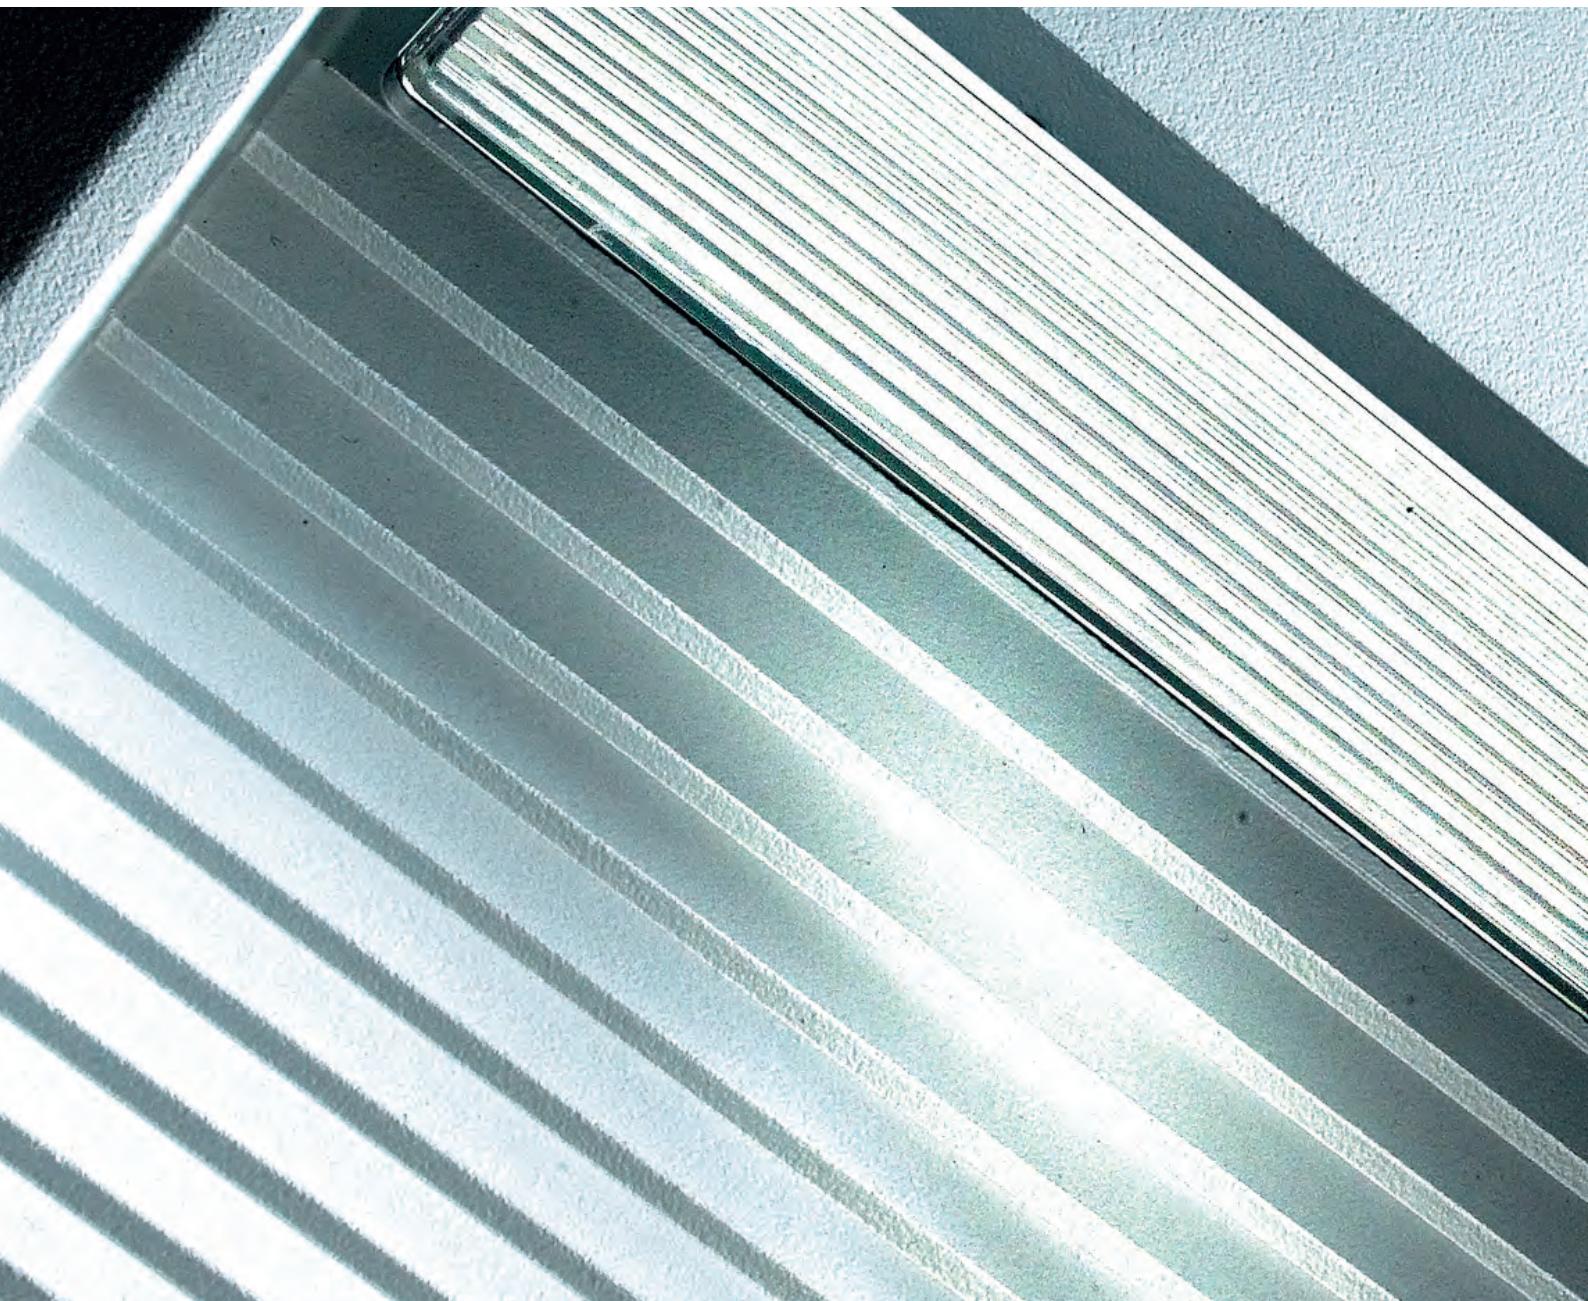

Bollard a terra che presenta caratteristiche costruttive di alta qualità. Fante è un prodotto estremamente massiccio e resistente pensato e ideato per garantire soluzioni di luminosità per l'ambiente esterno soprattutto nelle aree residenziali caratterizzate da zone verdi e giardini. Vi è la possibilità di scegliere il prodotto Fante in tre varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione.

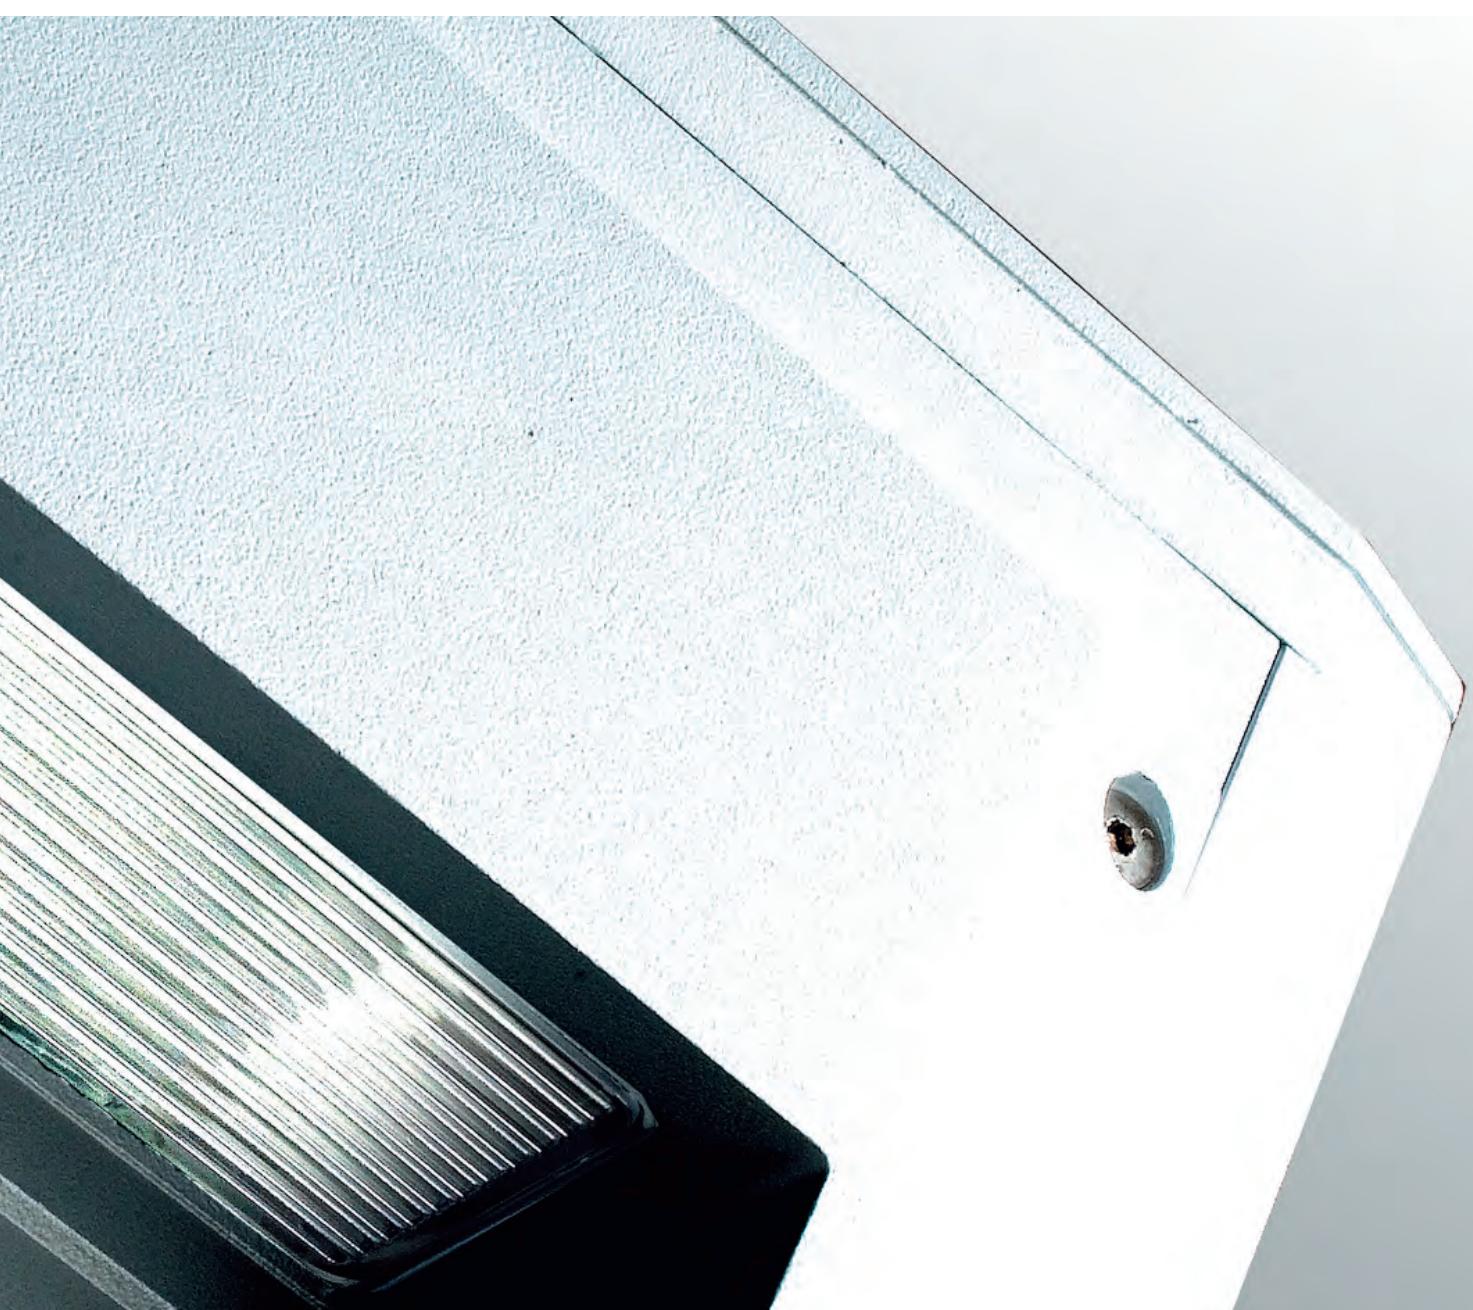

Meccanicamente costruito in modo tale che la luce sia direzionata in maniera specifica, Fante si presenta come un prodotto versatile e completo che può essere quindi adattato a piacimento. Infine, il prodotto è disponibile anche nella versione **LED** che ne garantisce l'efficienza luminosa e permette consumi di energia minimi.

*A ground bollard with high quality building features.*

*Fante is an extremely durable and solid product, designed for ensuring luminosity solutions for outdoor environment, especially in residential areas with gardens and greens. With the choice among three different colour shades, Fante can perfectly match your setting needs.*

*Mechanically manufactured in such a way that the light is directed in a specific way, Fante is a complete and versatile product which can be adapted to all requirements. The product is also available in a **LED** version, guaranteeing lighting efficiency and the lowest energy consumption level.*

#### Caratteristiche Costruttive/*structural Construction*

Installazione: a terra, a parete

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione. Palo in estruso in alluminio UNI EN 573-3 (6060)

Diffusori: policarbonato trasparente, nella versione con lampada G12 vetro temperato - opale (disponibile su richiesta)

Cassaforma: polipropilene, completa di coperchio di protezione in corso di installazione

Riflettore: alluminio brillantato e anodizzato

Portalampada: G24d-3 - **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V reattore elettromeccanico 50/60Hz

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

*Fixing: ground fixing, recessed lightings*

*Components: die cast aluminium EN AB 46100 , painted with polyester powder UV ray and corrosion resistant. Extruded aluminium pole UNI EN 573-3 (6060)*

*Diffusers: transparent polycarbonate - opal (available on request)*

*Formwork: polypropylene, complete with top for protection during the installation*

*Reflector: brightened and anodised aluminium*

*Lampholder: G24d-3 - LED*

*Lamp not included*

*Wiring: voltage 220-240V electromechanical driver 50/60Hz*

*Screws kit: stainless steel*

*Gasket: moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

*Mark: CE*

# SILURETTO

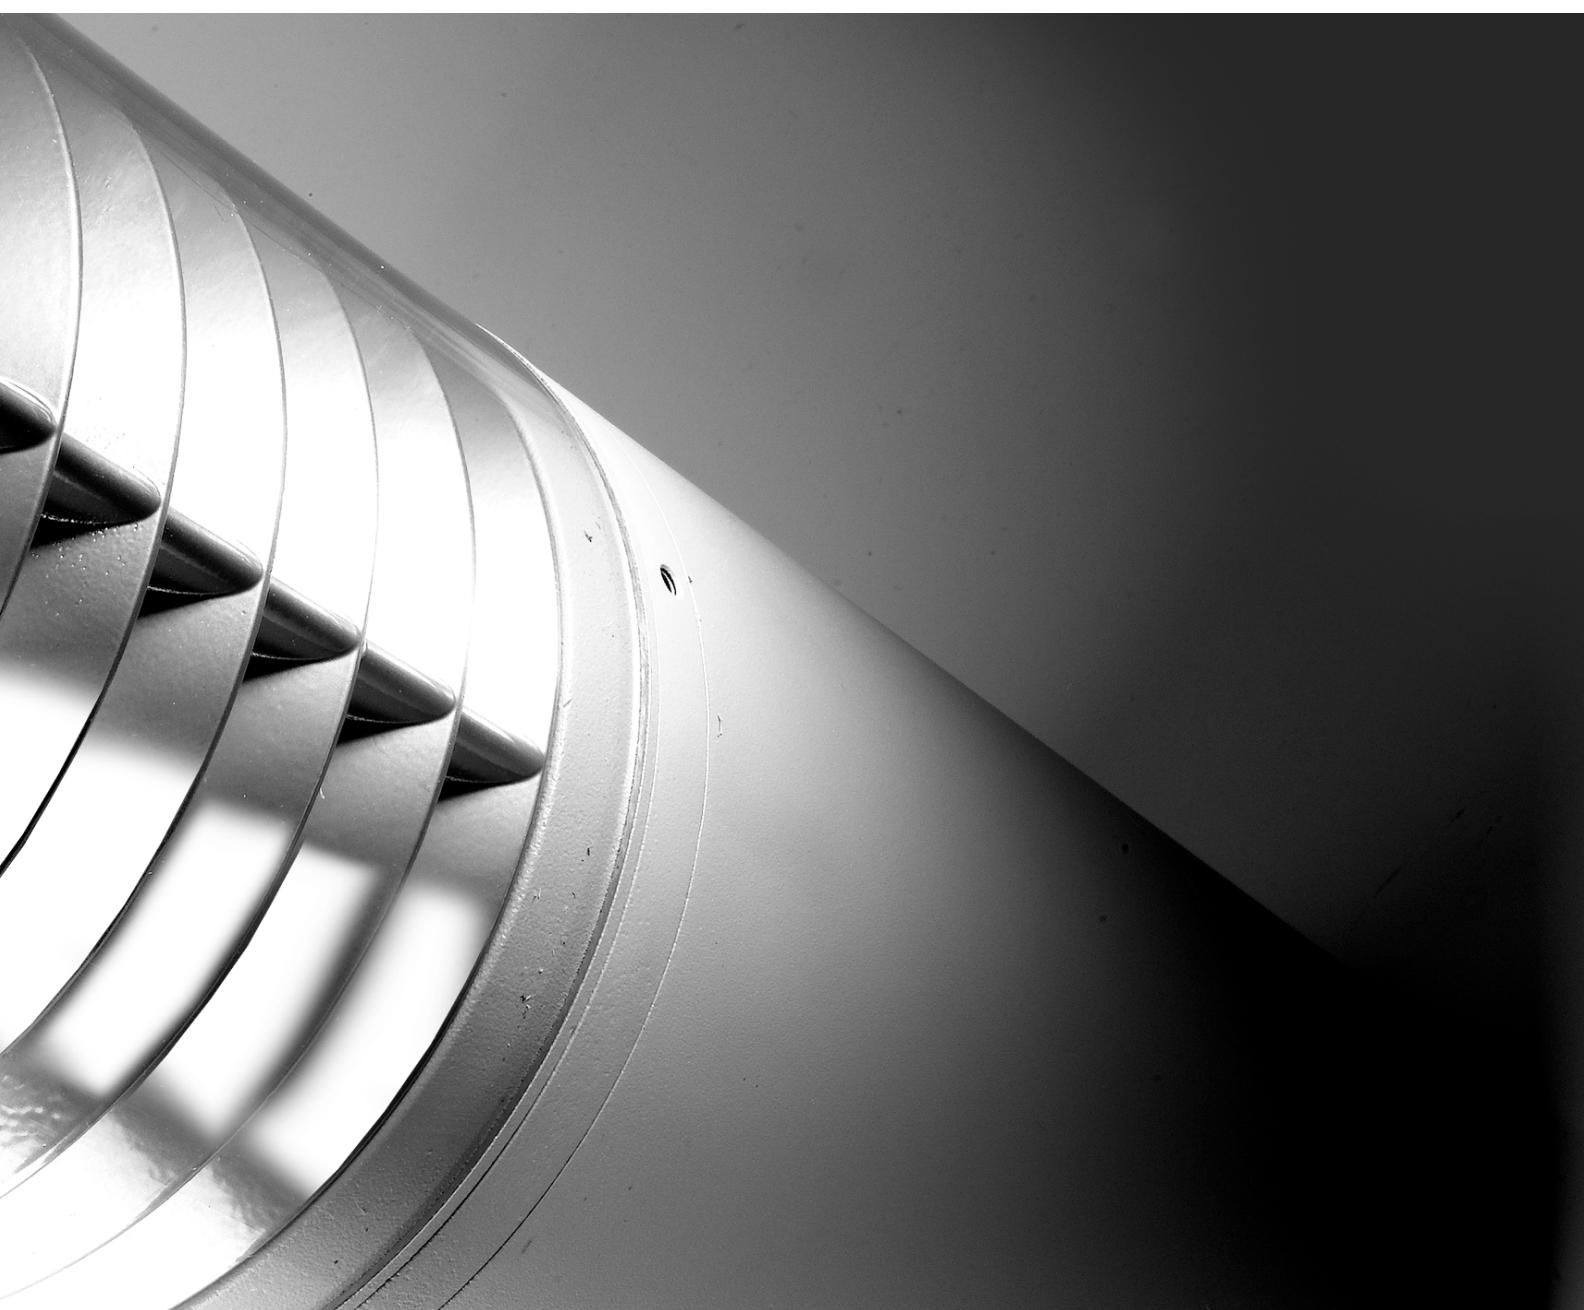

Bollard caratterizzato da un design lineare e sobrio, è disponibile in due altezze differenti: 525 cm, 1045 cm.

Siluretto è stato ideato in tre varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione, inoltre, il diffusore in policarbonato di cui è dotato può essere sia trasparente sia opale. Abbiamo progettato per questo prodotto due tipi di fissaggio a terra che lo rendono particolarmente ideale per l'illuminazione di ambienti esterni soprattutto giardini, vialetti quindi zone residenziali. Infine, il prodotto è disponibile anche nella versione LED che ne garantisce l'efficienza luminosa e permette consumi di energia minimi.

*Siluretto is a bollard characterised by a plain and linear design and is available in two different heights: 525 cm, 1045 cm.*

*Siluretto has been created in three different colour shades in order to better suit your setting needs. Moreover it is equipped with a polycarbonate diffuser which can be transparent or opal. The product has been designed with two types of ground installation systems which make it particularly ideal for lighting outdoor environments, especially gardens and small paths and therefore is perfect for residential areas. The product is also available in a **LED** version, guaranteeing lighting efficiency and the lowest energy consumption level.*

#### Caratteristiche Costruttive/*structural Construction*

Disponibili con luci omnidirezionali.

Installazione: a terra

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione. Palo in estruso in alluminio UNI EN 573-3 (6060)

Diffusori: policarbonato trasparente o opale

Frangiluce: alluminio lucido

Portalampada: E27 – G24d-3 – E27 HQI – **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V reattore elettromeccanico 50/60Hz

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

# MIGNOLO

Bollard caratterizzato da un design essenziale, è disponibile in due altezze differenti: 545 cm, 1095 cm. Abbiamo progettato per questo prodotto due tipi di fissaggio a terra che lo rendono particolarmente ideale per l'illuminazione di ambienti esterni soprattutto giardini, vialetti quindi zone residenziali.

Mignolo è stato ideato in tre varianti di colore al fine di un miglior adeguamento alle vostre esigenze di ambientazione, inoltre, il diffusore in policarbonato di cui è dotato, può essere sia trasparente sia opale. Infine, il prodotto è disponibile anche nella versione LED che ne garantisce l'efficienza luminosa e permette consumi di energia minimi.

*A bollard characterised by a basic design, and available in two different heights: 545 cm, 1095 cm. The product has been designed with two types of ground installation systems which make it particularly ideal for lighting outdoor environments, especially gardens and small paths and therefore is perfect for residential areas.*

*Mignolo has been created in three different colour shades in order to better suit your setting needs. Mignolo is also equipped with a polycarbonate diffuser which can be transparent or opal. The product is also available in a LED version, guaranteeing lighting efficiency and the lowest energy consumption level.*

## Caratteristiche Costruttive/*structural Construction*

Disponibili con luci omnidirezionali.

Installazione: a terra

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione. Palo in estruso in alluminio UNI EN 573-3 (6060)

Diffusori: policarbonato trasparente o opale

Frangiluce: alluminio lucido

Portalampada: E27 – G24d-3 – E27 HQI – **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V reattore elettromeccanico 50/60Hz

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

*Available with omni direction emission.*

*Fixing: ground fixing*

*Components: die cast aluminium EN AB 46100 , painted with polyester powder UV ray and corrosion resistant. Extruded aluminium pole UNI EN 573-3 (6060)*

*Diffusers: transparent polycarbonate or opal*

*Lightbreak: bright aluminium*

*Lampholder: E27 – G24d-3 – E27 HQI – **LED***

*Lamp not included*

*Wiring: voltage 220-240V electromechanical ballast 50/60Hz*

*Screws kit: stainless steel*

*Gasket: moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

*Mark: CE*

# Lighthouse

Apparecchi a colonna con ottica rotosimmetrica caratterizzati da un design lineare e sobrio, ideati in varie altezze e forme.

Disponibili in tre varianti:

Con riflettore asimmetrico 30°

Con riflettore 360°

Lighthouse Double a doppia emissione di luce e doppia accensione per risparmio energetico. La doppia emissione di luce permette di creare scenografie ed effetti di luce in aree pedonali.

Bollards ideali per l'illuminazione di ambienti esterni, soprattutto aree urbane, giardini, vialetti quindi zone residenziali.

*Bollard Lighting fixture devices with rotationally symmetric optics feature by a sober smooth design, available in various heights and shapes.*

*Three variants:*

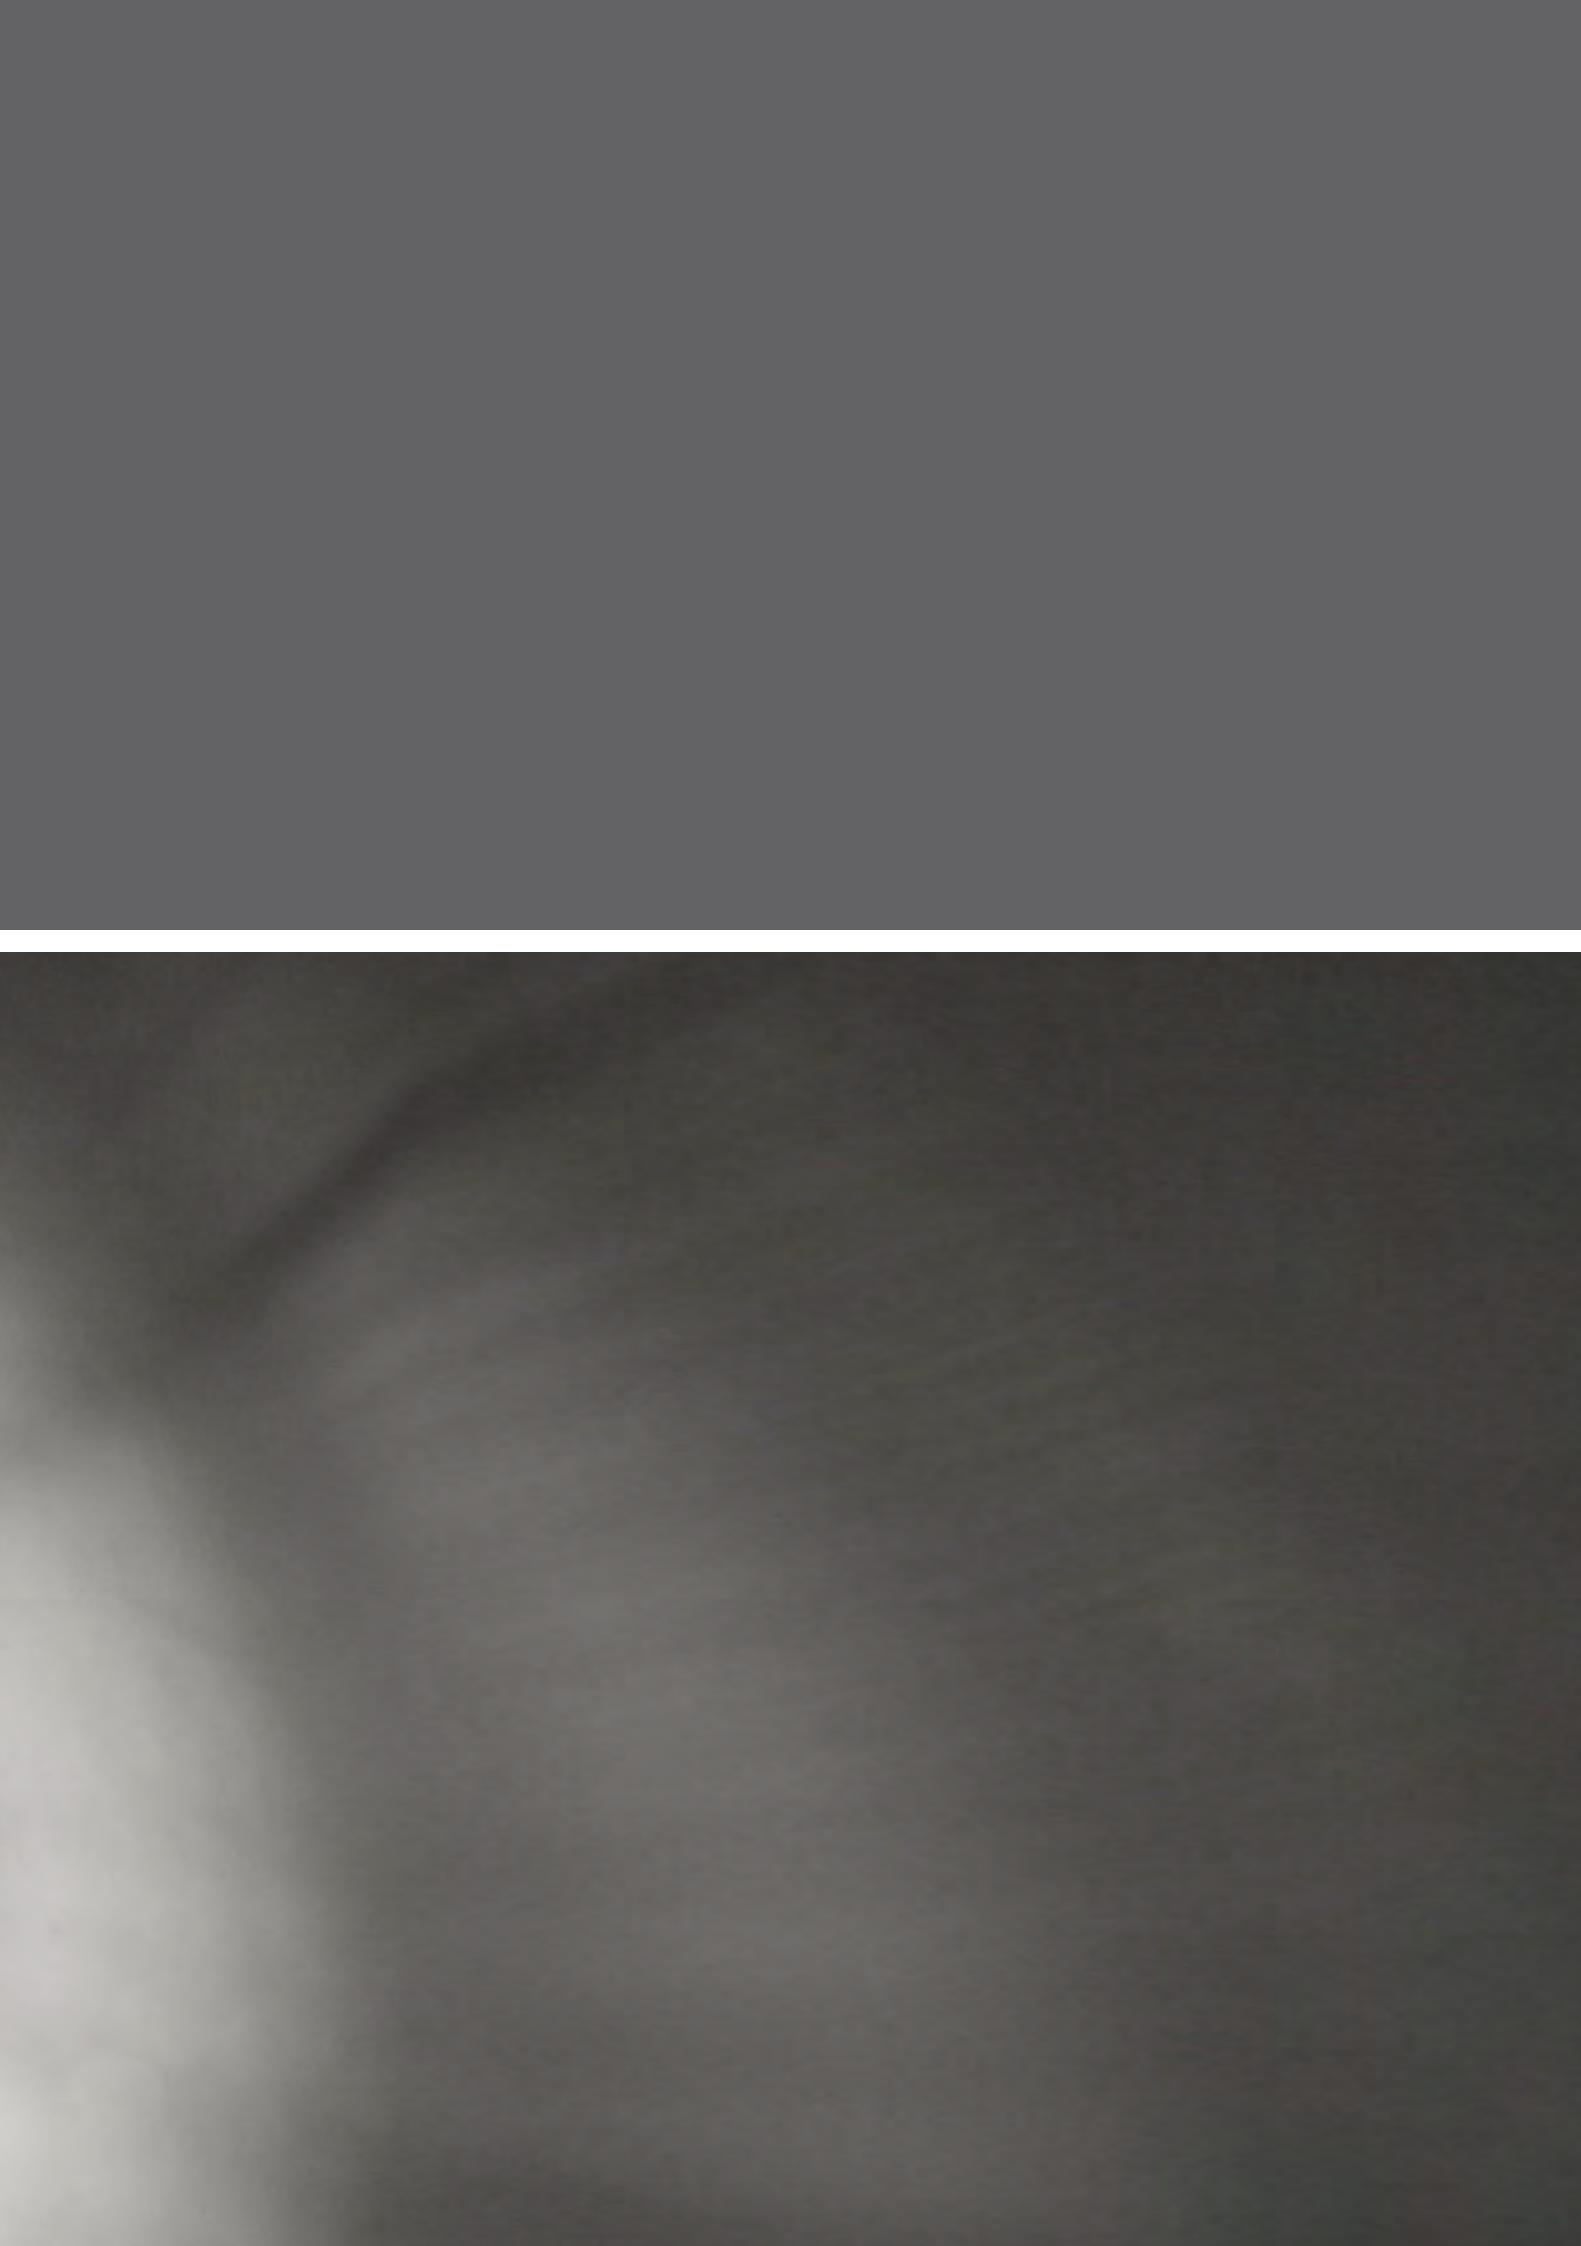

*With asymmetric reflector 30°*

*With 360° Reflector*

*Lighthouse Double with double light emission and dual ignition energy savings. The double light emission allows you to create sets and lighting effects in pedestrian areas.*

*Bollards are ideal for outdoor areas, especially urban areas, gardens, driveways then residential areas.*

#### Caratteristiche Costruttive/*structural Construction*

Disponibili con luci omnidirezionali.

Installazione: a terra

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione. Palo in estruso in alluminio UNI EN 573-3 (6060)

### Sistemi di fissaggio

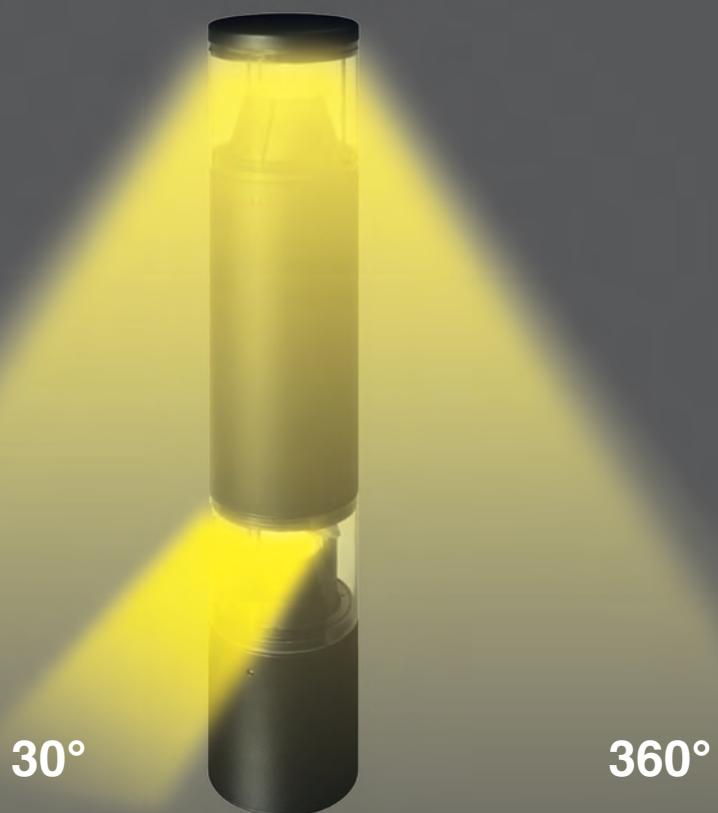

Anchoring system

## 324 - LIGHTHOUSE DOUBLE

Doppia ottica a 360° e 30° con doppia accensione

*360° roto-symmetric optics and 30° symmetric optic white double ignition*

# CUPOLA

Bollard caratterizzato da un design lineare e sobrio, disponibile in tre modelli.

Il diffusore in policarbonato di cui è dotato può essere sia trasparente sia opale.

Grazie alla capacità di diffondere la luce a 360°, questo prodotto si presenta evolutivo, completo ed estremamente efficiente.

Ideato e progettato per offrire soluzioni di luce non solo per grandi spazi ma anche per aree residenziali più ridotte.

*Bollard characterised by plain and linear design, available in three different versions.*

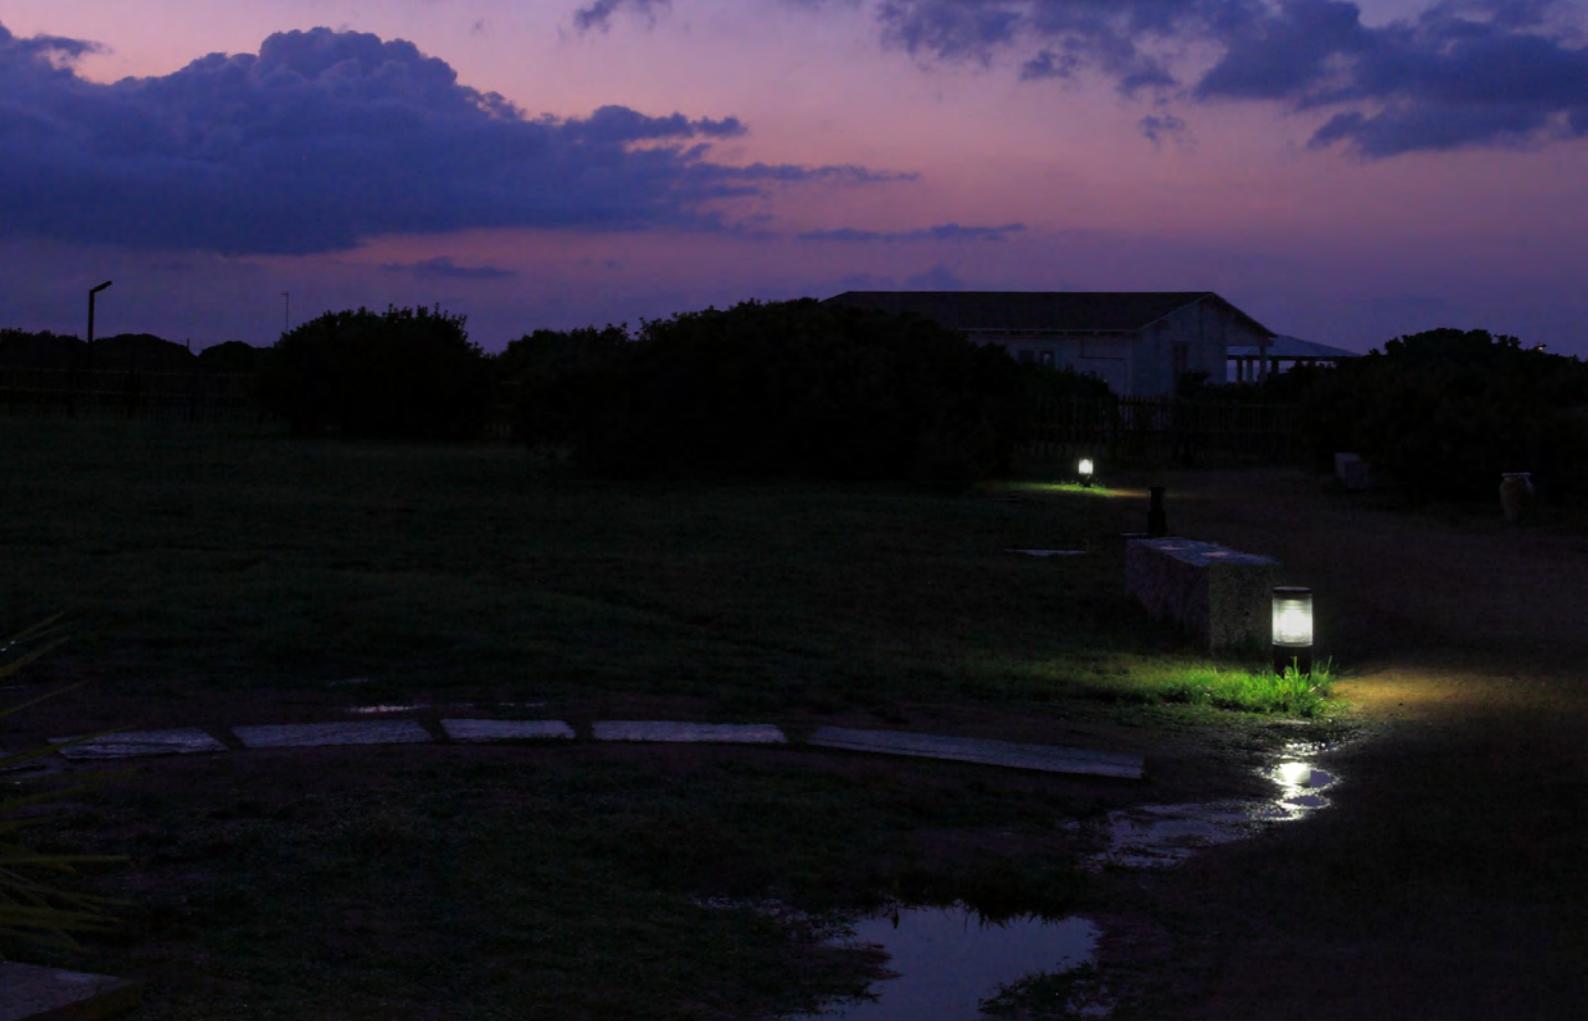

*It is equipped with a polycarbonate diffuser which can be transparent or opal.*

*Thanks to its ability to diffuse a 360° light, this is an evolutionary, complete and extremely efficient product.*

*A bollard designed and created to offer lighting solutions not only for large spaces but also smaller residential areas.*

## Caratteristiche Costruttive/*structural Construction*

Disponibili con luci omnidirezionali.

Installazione: a terra

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione. Palo in estruso in alluminio UNI EN 573-3 (6060)

Diffusori: policarbonato trasparente o opale

Frangiluce: plastica cromata

Portalampada: G12 - G24d-3 - 2G11 - E27 - **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V reattore elettromeccanico 50/60Hz

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

*Available with omni direction emission.*

*Fixing: ground fixing*

*Components: die cast aluminium EN AB 46100 , painted with polyester powder UV ray and corrosion resistant. Extruded aluminium pole UNI EN 573-3 (6060)*

*Diffusers: transparent polycarbonate or opal*

*Lightbreak: chrome plated plastic*

*Lampholder: G12 - G24d-3 - 2G11 - E27 - LED*

*Lamp not included*

*Wiring: voltage 220-240V electromechanical ballast 50/60Hz*

*Screws Kit: stainless steel*

*Gasket: moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

*Mark: CE*

Dati tecnici SISTEMI DI FISSAGGIO PER MODELLI: LINEA - FORMA - CUPOLA  
Technical data FIXING FOR FORMS SYSTEMS: LINEA - FORMA - CUPOLA

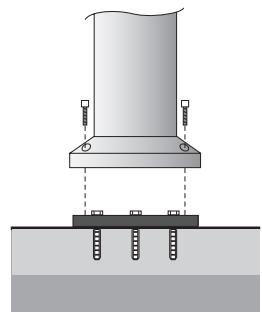

**FISSAGGIO CON GHIERA**

Fissaggio palo con viti ed inserti esagonali bloccati nella ghiera.  
Ghiera di fissaggio a terra in PP Polipropilene.  
Si utilizzano per il fissaggio tasselli ad espansione in metallo.

**SUB-BEARING MOUNTING**

Pole fixed with screws and nuts inserted into the sub-bearing.  
PP Polypropylene sub-bearing base for ground mounting.  
Metal anchor screw bolts required for installation.

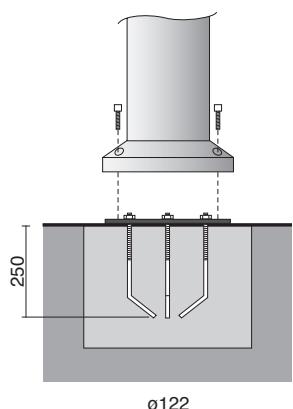

**FISSAGGIO CON FLANGIA**

Codice ACRO004  
Flangia di fissaggio a terra in metallo con tirafondi da annegare  
in plinto di cemento

**ANCHOR BOLTS MOUNTING**

Code ACRO004

Supplied with Metal flange and anchor bolts for ground mounting  
with a concrete base in the ground.

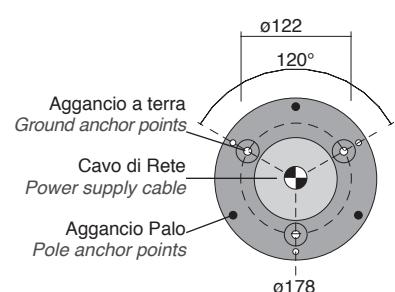

**DIMENSIONI E ORIENTAMENTO**

L'orientamento è indipendente dalla disposizione dei 3 fori di  
aggancio a terra

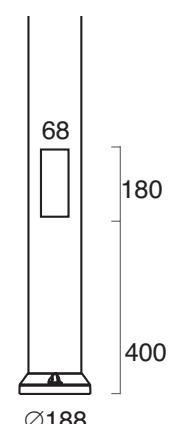

**DIMENSIONS AND POSITIONING**

The direction is independent to the position of the three ground  
anchor points

**SPORTELLO DI ISPEZIONE A RICHIESTA**  
Per versioni 367-368-369.

**DOOR OF INSPECTION ON REQUEST**  
For 367-368-369 type.

# PALI POLES

# SILURO

Palo caratterizzato da un design lineare e sobrio, è disponibile in quattro altezze differenti: 2100 cm, 2600 cm, 3100 cm, 3600 cm. Il diffusore in policarbonato di cui è dotato può essere sia trasparente sia opale.

Grazie alla sua capacità di diffondere la luce a 360°, Siluro si presenta come un prodotto evolutivo, completo ed estremamente efficiente.

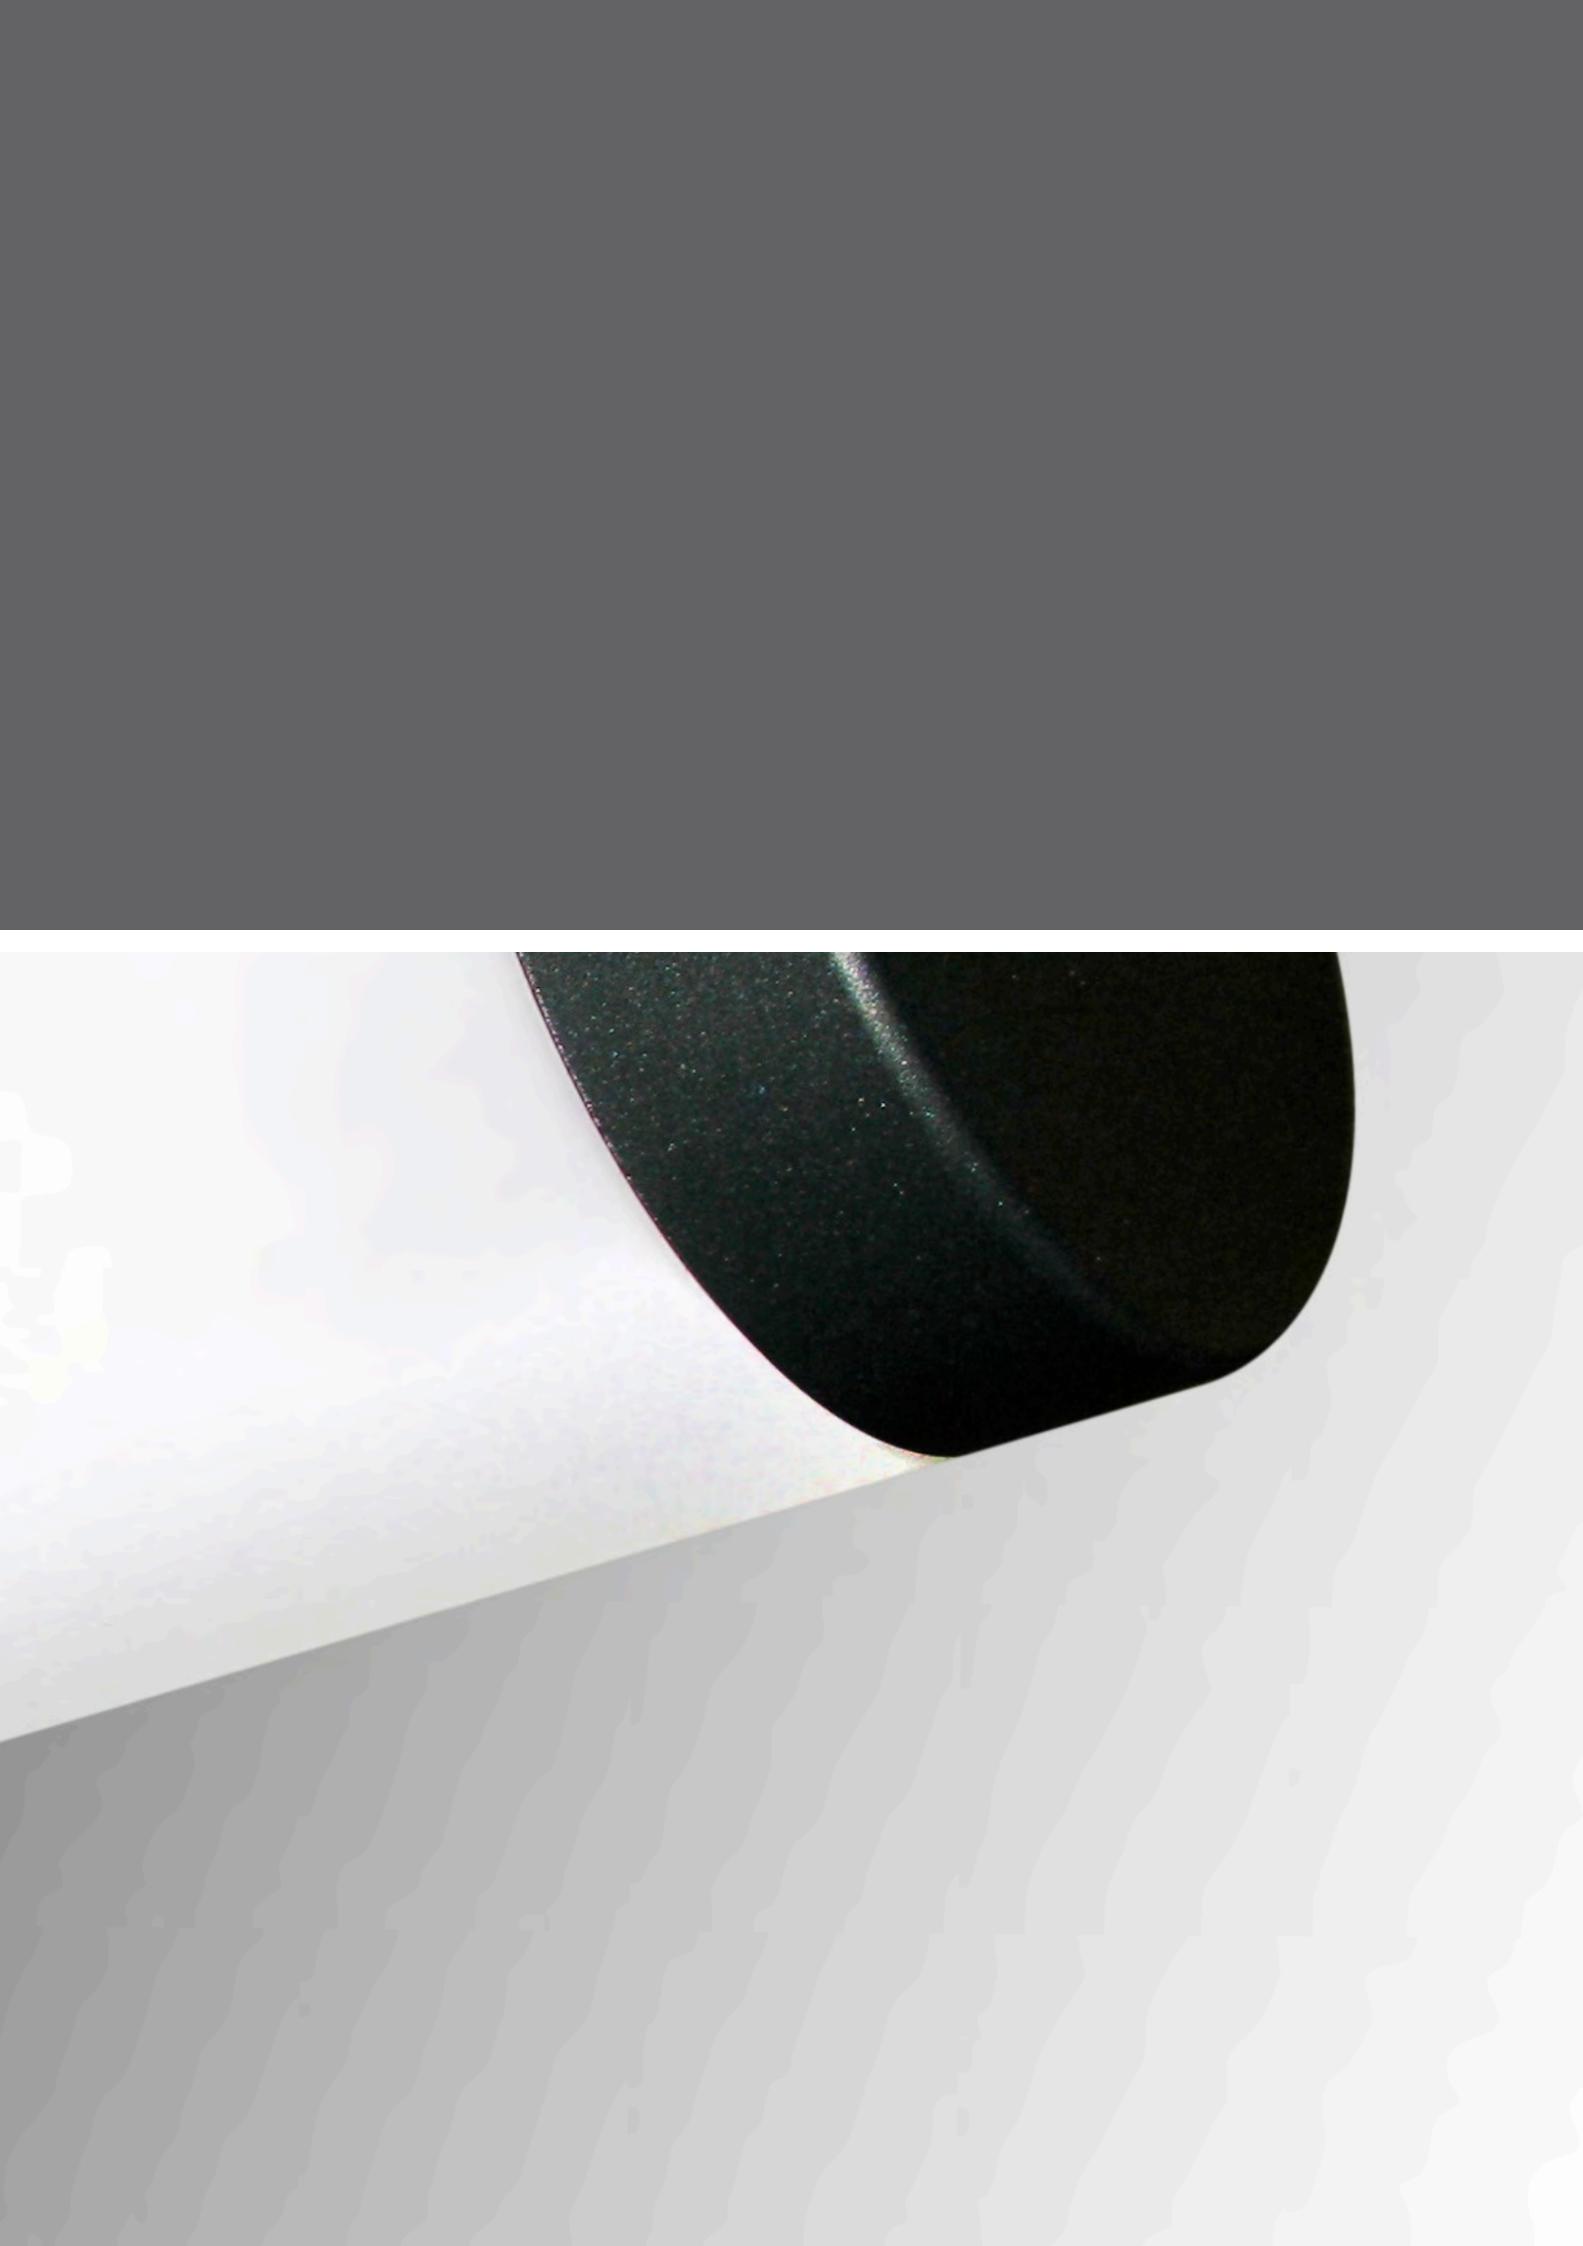

Palo ideato e progettato per offrire soluzioni di luce non solo per grandi spazi ma anche per aree residenziali più ridotte. Infine, Siluro è disponibile anche nella versione LED che ne garantisce l'efficienza luminosa e permette consumi di energia minimi.

*Siluro is a pole characterised by plain and linear design, and is available in four different heights: 2100 cm, 2600 cm, 3100 cm, 3600 cm.*

*It is equipped with a polycarbonate diffuser which can be transparent or opal. Thanks to its ability to diffuse a 360° light, Siluro is an evolutionary, complete and extremely efficient product.*

*A pole designed and created to offer lighting solutions not only for large spaces but also smaller residential areas. Siluro is also available in a LED version, guaranteeing lighting efficiency and the lowest energy consumption level.*

#### Caratteristiche Costruttive/*structural Construction*

Disponibili con luci omnidirezionali.

Installazione: a terra

Componenti: pressofusione di alluminio EN AB 46100 , verniciato con polveri poliesteri ad elevata resistenza ai raggi UV e alla corrosione. Palo in estruso in alluminio UNI EN 573-3 (6060)

Diffusori: policarbonato trasparente o opale

Frangiluce: alluminio lucido

Portalampada: G5 – 2G11 – E27 – **LED**

Lampada non inclusa

Cablaggio: tensione di rete 220-240V reattore elettromeccanico 50/60Hz

Viterie: acciaio inox

Guarnizione: silicone

Isolamento: Classe I

Normative: conformità alle norme EN60598-1

Marchio: CE

*Available with omni direction emission.*

*Fixing: ground fixing*

*Components: die cast aluminium EN AB 46100 , painted with polyester powder UV ray and corrosion resistant. Extruded aluminium pole UNI EN 573-3 (6060)*

*Diffusers: transparent polycarbonate or opal*

*Lightbreak: bright aluminium*

*Lampholder: G5 – 2G11 – E27 – LED*

*Lamp not included*

*Wiring: voltage 220-240V electromechanical ballast 50/60Hz*

*Screws Kit: stainless steel*

*Gasket: moulded silicone*

*Insulation: Class I*

*Norms: manufactured in compliance with EN60598-1 norms*

*Mark: CE*

# NOTA

Forme innovative e materiali di elevatissima qualità fanno di Nota un prodotto perfetto per rivestire i vostri spazi esterni. Disponibile per installazione a parete e a terra, Nota garantisce la massima resa e durevolezza nel tempo, oltre ad una estrema versatilità per soddisfare tutti i tipi di esigenza di ambientazione. Nota è il perfetto connubio tra stile e tecnologia avanzata.

*An innovative design and high quality materials make Nota a perfect furnishing for your outdoor spaces.  
Available for wall and floor mount installation, Nota guarantees maximum performance and durability over time as well as high versatility that fits every type of setting.  
Nota is a perfect combination of style and advanced technology.*

#### Caratteristiche Costruttive/*structural Construction*

Disponibili con luci monodirezionali.

Installazione: a parete e a terra

Componenti: corpo in pressofusione di alluminio Lega EN AB 46100

palo ø75 in alluminio trafiletto Lega EN AW6060

Diffusori: in vetro temperato trasparente s=4mm

Verniciatura: in polvere poliestere resistente alla corrosione e alle nebbie saline (ISO7523)

Portalampada: RX7s-24

Lampada non inclusa

Cablaggio: cavo di collegamento Testa/Base tipo ND21N in Silicone 3x1,5mm

ingresso alimentazione con pressacavo IP68 in ottone

Viterie: acciaio inox A2

Guarnizione: guarnizione vetro in gomma siliconica

guarnizione Corpo in gomma EPDM 45sh

guarnizione vetro in Gomma siliconica 50sh

sportello di ispezione con viti torx antivandalo

Isolamento: Classe I

Normative: conforme alla Norma EN 60598 (CEI 34-21) e prescrizioni particolari

Marchio: CE

Fissaggio a parete pagina 37

*Available with mono direction emission*

*Fixing: wall fixing and ground fixing*

*Components: body in die-cast aluminium - Alloy EN AB 461 pole ø75 in extruded aluminium Alloy EN AW6060*

*Diffusers: clear toughened safety glass s=4mm*

*Painting: polyester powder paint finish resistant to corrosion and sea mist (ISO72523)*

*Lampholder: RX7s-24*

*Lamp not included*

*Wiring: power cable head/base type ND21N in silicon rubber 3x1,5mm*

*line entry with metallic cable gland IP68*

*Screws kit: A2 stainless steel*

*Gasket: silicon rubber seal for glass*

*EPDM 45sh rubber seal for lamp body*

*silicon rubber 50sh seal for glass*

*inspection door fixed with vandal-proof torx screws*

*Insulation: Class I*

*Norms: conforms to the standard EN 60598 (CEI 34-21) and specific provisions*

*Mark: CE*

# VENTO

I materiali di elevata qualità fanno di Vento un prodotto eccellente ed affidabile per l'utilizzo in esterno.

Installabile a terra, Vento è un prodotto adattabile ad ogni esigenza, grazie alle sue forme moderne ma eleganti. Vi garantirà una resa massima ed una propagazione ottimale della luce nel tempo, rivestendo i vostri spazi esterni di ricercatezza.

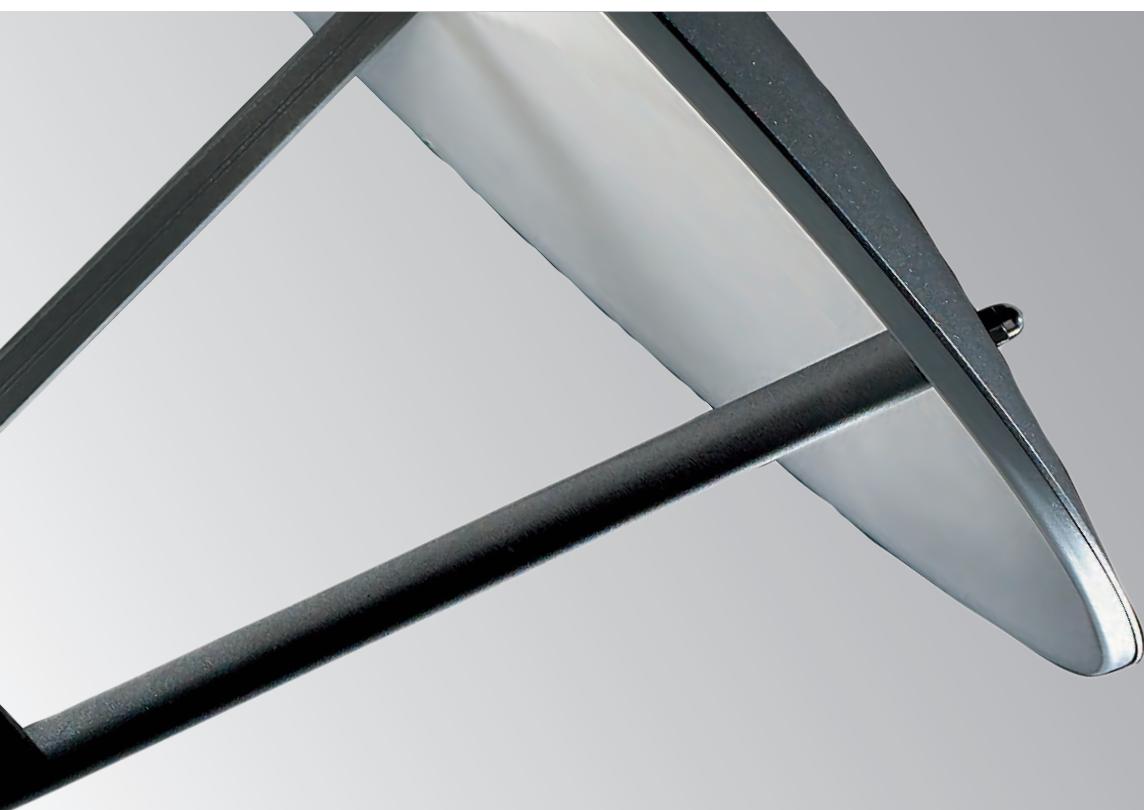

Vento è il risultato dell'unione tra design ed efficienza.

*High quality materials make Vento an excellent and reliable product for outdoor use.*

*Available for floor mount installation, Vento can adapt to any requirement due to its modern and elegant design. It guarantees maximum performance and optimal lighting over time, furnishing your outdoor spaces with refined style.*

*Vento unites design and efficiency.*

#### Caratteristiche Costruttive/*structural Construction*

Disponibili con luci monodirezionali.

Installazione: a terra

Componenti: Corpo lampada / Base in pressofusione di alluminio Lega EN AB 46100

palo ø120/ø75 in alluminio trafiletto Lega EN AW6060

Diffusori: in vetro temperato trasparente s=12mm

Verniciatura: in polvere poliestere resistente alla corrosione e alle nebbie saline (ISO7523)

Portalampada: G12

Lampada non inclusa

Cablaggio: cavo di collegamento Testa/Base tipo ND21N in Silicone 3x1,5mm

Viterie: acciaio inox A2

Guarnizione: guarnizione vetro/coperture in gomma EPDM 45sh flangia ancoraggio a terra con 4 tirafondi in metalli e dadi di fissaggio

Isolamento: Classe I / II (a richiesta)

Normative: conforme alla Norma EN 60598 (CEI 34-21) e prescrizioni particolari

Marchio: CE

*Available with mono direction emission*

FRAMON®

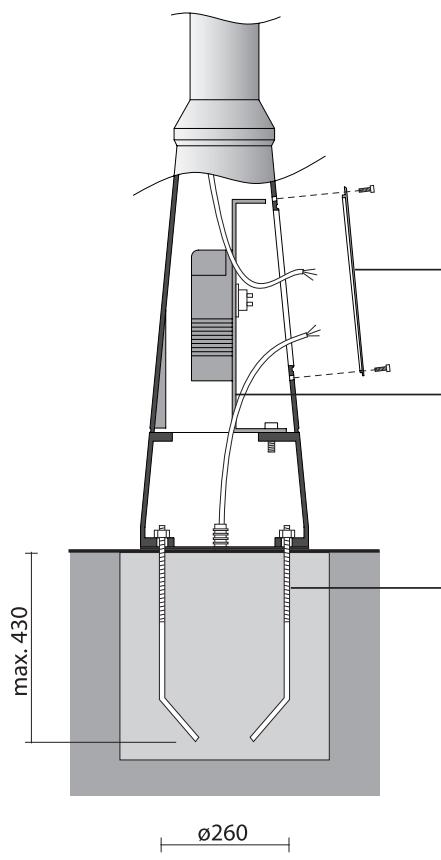

### BOX68/M150 - BOX68/M70

Box stagno IP68 corredato di 2 pressacavi in ottone per alimentazione in fila continua. Può essere inserito in un pozetto con dimensioni minime 250x250x200 (LxLxH). Adatto per applicazione apparecchio su singolo palo Ø75 interrato. Cablato con alimentatore magnetico 150W(M150) e 70W(M70) ioduri metallici e condensatore di rifasamento.

Water proof IP68 box with 2 metal cable glands for continuous wiring. This enclosure can be positioned in a small shaft measuring minimum 250x250x200mm (LxLxD). Suitable for luminaire head fixing onto a Ø75mm cast-in pole. Already wired with magnetic ballast 150W(M150) or 70W(M70) for discharge lamps with parallel capacitor.

Sistema di fissaggio con tirafondi  
Mounting system with anchor bolts

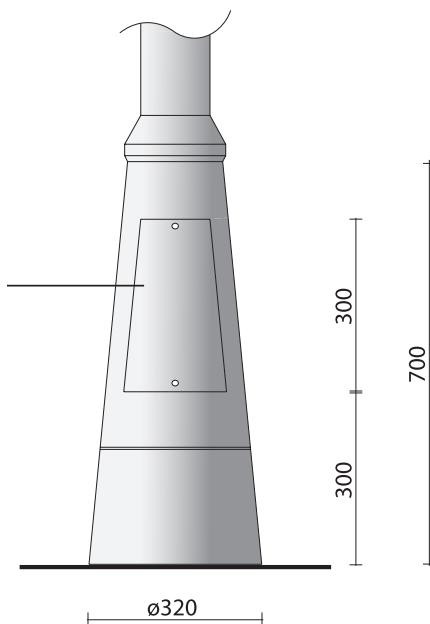

Vano ispezione con viti anti-vandalismo  
Inspection door with vandal-proof screws

Staffa rimovibile con gruppo di alimentazione per lampade a scarica  
Removable bracket for discharge lamps power group

Flangia con n°4 tirafondi di ancoraggio filettati per plinti in cemento.  
Flange with 4 metal anchor bolts and nuts for concrete plinths

Gli assi dei fori di fissaggio sono inclinati di 45° rispetto al vano di ispezione. L'orientamento del corpo lampada al contrario è indipendente dalla disposizione dei 4 fori di aggancio.  
The 4 holes axes are inclined 45° to the inspection door. The orientation of body lamp is independent to the position of the four anchor points.
